Ms. Nelda Burd, Board President  
South Butler County School District  
328 Knoch Road  
Saxonburg, Pennsylvania 16056

Dear Governor Corbett and Ms. Burd:

We conducted a performance audit of the South Butler County School District (District) to determine its compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures (relevant requirements). Our audit covered the period August 4, 2011 through June 7, 2013, except as otherwise indicated in the report. Additionally, compliance specific to state subsidies and reimbursements was determined for the school years ended June 30, 2011 and June 30, 2012. Our audit was conducted pursuant to Section 403 of The Fiscal Code, 72 P.S. § 403, and in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

Our audit found that the District complied, in all significant respects, with relevant requirements.

We appreciate the District's cooperation during the conduct of the audit.

Sincerely,

A handwritten signature in black ink, appearing to read "Eugene A. DePasquale".

EUGENE A. DEPASQUALE  
Auditor General

## **Executive Summary**

### **Audit Work**

The Pennsylvania Department of the Auditor General conducted a performance audit of the South Butler County School District (District) in Butler County. Our audit sought to answer certain questions regarding the District's compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures and to determine the status of corrective action taken by the District in response to our prior audit recommendations.

Our audit scope covered the period August 4, 2011 through June 7, 2013, except as otherwise indicated in the audit scope, objectives, and methodology section of the report. Compliance specific to state subsidies and reimbursements was determined for the 2010-11 and 2011-12 school years.

### **District Background**

The District encompasses approximately 97 square miles. According to 2010 federal census data, it serves a resident population of 19,401. According to District officials, the District provided basic educational services to 2,623 pupils through the employment of 182 teachers, 85 full-time and part-time support personnel, and sixteen (16) administrators during the 2011-12 school year. The District received \$13,095,677 in state funding in the 2011-12 school year.

### **Audit Conclusion and Results**

Our audit found that the District complied, in all significant respects, with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures. We report no findings or observations in this report.

**Status of Prior Audit Findings and Observations.** With regard to the status of our prior audit recommendations to the South Butler County School District (District) from an audit released on February 24, 2012, we found that the District had taken appropriate corrective action in implementing our recommendations pertaining to overstated state revenue and its affect on the general fund balance. On December 9, 2011, the Pennsylvania Department of Education confirmed receipt of the District's revised annual financial report (see page 6).

## Audit Scope, Objectives, and Methodology

---

### Scope

*What is a school performance audit?*

School performance audits allow the Pennsylvania Department of the Auditor General to determine whether state funds, including school subsidies, are being used according to the purposes and guidelines that govern the use of those funds. Additionally, our audits examine the appropriateness of certain administrative and operational practices at each local education agency (LEA). The results of these audits are shared with LEA management, the Governor, the Pennsylvania Department of Education, and other concerned entities.

Our audit, conducted under authority of Section 403 of The Fiscal Code, 72 P.S. § 403, is not a substitute for the local annual audit required by the Public School Code of 1949, as amended. We conducted our audit in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

Our audit covered the period August 4, 2011 through June 7, 2013, except for the verification of professional employee certification, which was performed for the period August 1, 2012 through May 15, 2013.

Regarding state subsidies and reimbursements, our audit covered the 2010-11 and 2011-12 school years.

While all districts have the same school years, some have different fiscal years. Therefore, for the purposes of our audit work and to be consistent with Pennsylvania Department of Education (PDE) reporting guidelines, we use the term *school year* rather than fiscal year throughout this report. A school year covers the period July 1 to June 30.

### Objectives

*What is the difference between a finding and an observation?*

Our performance audits may contain findings and/or observations related to our audit objectives. Findings describe noncompliance with a statute, regulation, policy, contract, grant requirement, or administrative procedure. Observations are reported when we believe corrective action should be taken to remedy a potential problem not rising to the level of noncompliance with specific criteria.

Performance audits draw conclusions based on an evaluation of sufficient, appropriate evidence. Evidence is measured against criteria, such as laws and defined business practices. Our audit focused on assessing the District's compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures. However, as we conducted our audit procedures, we sought to determine answers to the following questions, which serve as our audit objectives:

- ✓ Were professional employees certified for the positions they held?
- ✓ Did the District, and any contracted vendors, ensure that current bus drivers were properly qualified, and did they have written policies and procedures governing the hiring of new bus drivers?

- ✓ Were votes made by the District’s Board of School Directors free from apparent conflicts of interest?
- ✓ Did the District have sufficient internal controls to ensure that the membership data it reported to PDE through the Pennsylvania Information Management System was complete, accurate, valid, and reliable?
- ✓ Were there any declining fund balances that may pose a risk to the District’s fiscal viability?
- ✓ Did the District take appropriate steps to ensure school safety?
- ✓ Did the District have a properly executed and updated Memorandum of Understanding with local law enforcement?
- ✓ Were there any other areas of concern reported by independent auditors, citizens, or other interested parties?
- ✓ Did the District take appropriate corrective action to address recommendations made in our prior audit?

## Methodology

### *What are internal controls?*

Internal controls are processes designed by management to provide reasonable assurance of achieving objectives in areas such as:

- Effectiveness and efficiency of operations.
- Relevance and reliability of operational and financial information.
- Compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures.

*Government Auditing Standards* require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our results and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our results and conclusions based on our audit objectives.

The District’s management is responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the District is in compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures (relevant requirements). In conducting our audit, we obtained an understanding of the District’s internal controls, including any information technology controls, as they relate to the District’s compliance with relevant requirements that we consider to be significant within the context of our audit objectives. We assessed whether those controls were properly designed and implemented. Any deficiencies in internal controls that were identified during the conduct of

our audit and determined to be significant within the context of our audit objectives are included in this report.

In order to properly plan our audit and to guide us in possible audit areas, we performed analytical procedures in the areas of state subsidies and reimbursements, pupil transportation, pupil membership, and comparative financial information.

Our audit examined the following:

- Records pertaining to pupil transportation, pupil membership, bus driver qualifications, professional employee certification, state ethics compliance, financial stability, reimbursement applications, tuition receipts, and deposited state funds.
- Items such as board meeting minutes and policies and procedures.

Additionally, we interviewed select administrators and support personnel associated with the District's operations.

To determine the status of our audit recommendations made in a prior audit report released on February 24, 2012, we performed additional audit procedures targeting the previously reported matters.

## **Findings and Observations**

---

**F**or the audited period, our audit of the South Butler County School District resulted in no findings or observations.

## **Status of Prior Audit Findings and Observations**

---

**O**ur prior audit of the South Butler County School District (District) released on February 24, 2012, resulted in one (1) observation. The observation pertained to an overstatement of state revenue and the affect on general fund balance. As part of our current audit, we determined the status of corrective action taken by the District to implement our prior audit recommendations. We performed audit procedures and interviewed District personnel regarding the prior observation. As shown below, we found that the District did implement recommendations related to the observation.

### **Auditor General Performance Audit Report Released on February 24, 2012**

---

**Observation:**                      **General Fund Balance Over-Reported for 2009-10 School Year**

Observation Summary:      Our prior audit of the District found that the District had overstated their state revenue received by \$1,064,424, which affected the general fund balance and caused it to be over reported by the same amount.

Recommendations:              Our audit observation recommended that the District should:

1. Revise and resubmit the 2009-10 annual financial report (AFR) to the Pennsylvania Department of Education (PDE) according to instructions on page 13 of PDE's AFR user manual.
2. Require their independent auditor to revise and resubmit their 2009-10 independent auditor's report.

Current Status:                      During our current audit, we found that the District did implement our prior recommendations. On December 9, 2011, a revised AFR was submitted to PDE.
