AUDITOR GENERAL

Independent Auditor's Report

The Honorable Leslie Richards
Acting Secretary
Department of Transportation
Harrisburg, PA 17120

We examined the accompanying Forms MS-965 With Adjustments for the Liquid Fuels Tax Fund of the Borough of Laurel Mountain, Westmoreland County, for the period January 1, 2012 to December 31, 2013. The municipality's management is responsible for the Forms MS-965. Our responsibility is to express an opinion on the Forms MS-965 With Adjustments based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. An examination includes examining, on a test basis, evidence supporting the Borough of Laurel Mountain, Westmoreland County's Forms MS-965 for the period January 1, 2012 to December 31, 2013 and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

We are mandated by Section 403 of *The Fiscal Code*, 72 P.S. § 403, to audit each municipality's Liquid Fuels Tax Fund to ensure that funds received are expended in accordance with applicable laws and regulations. *Government Auditing Standards* issued by the Comptroller General of the United States include attestation engagements as a separate type of audit. An attestation engagement performed pursuant to *Government Auditing Standards* involves additional standards that exceed the standards provided by the American Institute of Certified Public Accountants. Accordingly, this attestation engagement complies with both *Government Auditing Standards* and Section 403 of *The Fiscal Code*.

As described in Note 4, the adjustments included on the Forms MS-965 With Adjustments are made by the Department of the Auditor General.

Independent Auditor's Report (Continued)

As discussed in Finding No. 2, the municipality deposited its 2012 Liquid Fuels Tax Fund allocation of \$6,171.97 that was received on March 30, 2012, and its 2013 Liquid Fuels Tax Fund allocation of \$6,070.12 that was received on April 1, 2013, into the General Fund, which is in noncompliance with the Liquid Fuels Tax Municipal Allocation Law.

In our opinion, except for the matter discussed in the preceding paragraph, the Forms MS-965 With Adjustments present, in all material respects, the information required by the Pennsylvania Department of Transportation for the Liquid Fuels Tax Fund of the Borough of Laurel Mountain, Westmoreland County, for the period January 1, 2012 to December 31, 2013, in conformity with the criteria set forth in Note 1.

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the Forms MS-965; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the Forms MS-965. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over reporting on the Forms MS-965 or on compliance and other matters; accordingly, we express no such opinions.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Forms MS-965 will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose of expressing an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a certain deficiency in internal control, described in the finding listed below, that we consider to be a material weakness in internal control:

- Failure To Properly Prepare Forms MS-965 - Recurring.

Independent Auditor's Report (Continued)

As part of obtaining reasonable assurance about whether the Forms MS-965 are free from material misstatement, we performed tests of the Borough of Laurel Mountain, Westmoreland County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of amounts on the Forms MS-965. However, providing an opinion on compliance with those provisions was not an objective of our engagement, and accordingly, we do not express such an opinion. The results of our tests disclosed the following instance of noncompliance that is required to be reported under *Government Auditing Standards*:

- Liquid Fuels Tax Fund Allocations Deposited Into The General Fund - Recurring.

We are concerned that the municipality failed to comply with our prior examination findings for failing to properly prepare its Form MS-965 and Liquid Fuels Tax Fund allocations deposited into the General Fund. The failure to properly complete Forms MS-965 increases the risk that errors or misappropriations may occur and remain undetected. Additionally, the risk that Liquid Fuels Tax Fund money may be used for unauthorized purposes increases when liquid fuels money is commingled with other funds. The municipality should strive to implement the recommendations and corrective actions noted in this report.

This report is intended solely for the information and use of the Pennsylvania Department of Transportation and the management of the Borough of Laurel Mountain, Westmoreland County, and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate the courtesy extended by the Borough of Laurel Mountain, Westmoreland County, to us during the course of our examination. If you have any questions, please feel free to contact Michael B. Kashishian, CPA, CGAP, CFE, Director, Bureau of County Audits, at 717-787-1363.

BOROUGH OF LAUREL MOUNTAIN
WESTMORELAND COUNTY
LIQUID FUELS TAX FUND
BACKGROUND
FOR THE PERIOD
JANUARY 1, 2012 TO DECEMBER 31, 2013

Background

The Liquid Fuels Tax Municipal Allocation Law, Title 72 P.S. § 2615.5, provides municipalities other than counties (townships, boroughs, cities, towns, home rule, and optional plan governments) with an annual allocation of liquid fuels taxes from the state's Motor License Fund to be used for the maintenance and repair of streets, roads, and bridges for which the municipality is responsible. The allocation of these funds to municipalities is based: (1) 50 percent on the municipality's proportion of local road mileage to the total local road mileage in the state, and (2) 50 percent on the proportion of a municipality's population to the total population in the state.

The Vehicle Code, Title 75 P.S. § 9511, provides municipalities with annual maintenance payments to be received from the Motor License Fund for functionally local highways that were transferred to a municipality from the Commonwealth of Pennsylvania.

Each municipality must deposit the Liquid Fuels Tax Fund money and annual maintenance payments that it receives into a special fund called the Municipal Liquid Fuels Tax Fund or State Fund. A municipality may not deposit any other monies into this fund except when the municipality does not have enough money in the special fund to meet the payments called for by its current annual budget for road and bridge purposes. In this case, the municipality may borrow money or transfer money from its General Fund to its Liquid Fuels Tax Fund.

The Department of Transportation has been given the regulatory authority for the administration of these funds. To qualify for its annual allocation, each municipality shall submit the following documents and information to the Department of Transportation:

1. Evidence that the treasurer is bonded in accordance with the law, or that its treasurer is a bank requiring no bond by January 31 of each year.
2. A report indicating the manner in which its liquid fuels tax allocation was expended in the previous year (Form MS-965) by January 31 of each year.
3. A report of elected and appointed officials by January 31 of each year.
4. A Survey of Financial Condition by March 15 of each year.

Department of Transportation *Publication 9* contains the policies and procedures that govern the use of Liquid Fuels Tax Fund money. However, if there is a difference between *Publication 9* and any legislation, the legislation shall govern.

1. Criteria

Section 1

This section of Form MS-965 With Adjustments provides a summary of Liquid Fuels Tax Fund expenditures by category. Categories requiring explanation include:

- Major equipment purchases are purchases of road machinery and road equipment with varying yearly costs in excess of the amounts indicated below:

Prior To 2012	2012	2013	2014
<u>\$4,000.00</u>	<u>\$10,000.00</u>	<u>\$10,200.00</u>	<u>\$10,300.00</u>

- Minor equipment purchases are purchases of road machinery and road equipment with varying yearly costs, or less, than the amounts indicated below:

Prior To 2012	2012	2013	2014
<u>\$4,000.00</u>	<u>\$10,000.00</u>	<u>\$10,200.00</u>	<u>\$10,300.00</u>

- Agility projects are exchanges of services with the Department of Transportation.

Section 2

This section of Form MS-965 With Adjustments provides information on the fund balance. Categories requiring explanation include:

- The state allocation is generally received from the Department of Transportation during the first week in April of each year. The amount the municipality receives is based half on its population and half on its road mileage.
- The turnback allocation is generally received from the Department of Transportation during the first week in April of each year. A municipality receives a yearly turnback allocation based on road mileage for all roads that were transferred to the municipality from the Commonwealth of Pennsylvania through the Highway Transfer Program.

1. Criteria (Continued)

Section 2 (Continued)

- Expenditures include the total transferred from Section 1.

Section 3

This section of Form MS-965 With Adjustments determines if the municipality expended Liquid Fuels Tax Fund money in excess of the permissible amount for equipment and the balance that the municipality may carry forward for the purchase of equipment to the subsequent year.

Department of Transportation *Publication 9* requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year and 20 percent of the current year's Liquid Fuels Tax Fund allocation and, if applicable, 20 percent of the turnback allocation plus other Department of Transportation approved adjustments.

If the municipality spent in excess of the amount listed on Line 4, the excess must be reimbursed to the Liquid Fuels Tax Fund.

The equipment balance to be carried forward for the subsequent year is the lesser of the amount on Line 6 or the ending fund balance on Line 6 of Section 2, but not less than zero.

Basis Of Presentation

The financial activities of the municipality are accounted for in separate funds. The Liquid Fuels Tax Fund is used to account for state aid revenues from the Pennsylvania Department of Transportation used primarily for building and improving local roads and bridges. The Forms MS-965 have been prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation as a result of the Fuels Tax Act 655, dated 1956 and as amended, which does not constitute a complete presentation of the entity's assets, liabilities, expenses, and fund balance. Accordingly, the presentation of Forms MS-965 With Adjustments is restricted to the Liquid Fuels Tax Fund, which represents a segment of the entity.

1. Criteria (Continued)

Basis Of Accounting

The accompanying Forms MS-965 With Adjustments are prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation. Under this method, revenues are recognized when received and expenditures are recorded when paid.

General Fixed Assets

General fixed assets are recognized as expenditures at the time of purchase. No depreciation has been provided on the heavy equipment used to maintain and repair roads and bridges.

2. Deposits

The Borough Code, Title 53 P.S § 46316, authorizes the borough to deposit its funds in the following:

- Deposits in savings accounts or time deposits, other than certificates of deposit or share accounts of institutions having their principal place of business in the Commonwealth of Pennsylvania and insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance. For any amount above the insured maximum, the depository shall pledge approved collateral.
- Certificates of deposit purchased from institutions insured by the FDIC or other like insurance to the extent that such accounts are so insured. For any amounts in excess of the insured maximum, such deposits shall be collateralized by a pledge or assignment of assets. Certificates of deposit may not exceed 20 percent of a bank's total capital surplus or 20 percent of a savings and loan or savings bank's assets minus liabilities.

Deposits consist of receipts and deposits in financial institutions. Pennsylvania statutes require all deposits to be insured and, for any amount above the insured maximum, to be secured with approved collateral as defined.

2. Deposits (Continued)

There were no deposits exposed to custodial credit risk as of December 31, 2013. Custodial credit risk, as defined by GASB No. 40, includes deposits that are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the municipality's name.

Fund Balance

The fund balance as of December 31, 2013 consists of the following:

Cash	\$ 6,279.67
Certificate of deposit	<u>7,905.34</u>
Total	<u>\$14,185.01</u>

3. Interest On Investments

Our examination disclosed that the municipality deposited idle liquid fuels tax money in an interest-bearing account and a certificate of deposit which earned \$6.68 during 2012, and \$7.51 during 2013, thus providing additional funds for road maintenance and repairs.

FINDINGS AND RECOMMENDATIONS
FOR THE PERIOD
JANUARY 1, 2012 TO DECEMBER 31, 2013

Finding No. 1 - Failure To Properly Prepare Forms MS-965 - Recurring

We cited the municipality for failure to properly prepare its Forms MS-965 in our prior report for the period January 1, 2009 to December 31, 2011. Our current examination disclosed that there were numerous errors made in the preparation of the municipality's 2012 and 2013 Forms MS-965. These adjustments, which are disclosed in Note 4, are as follows:

2012 - Section 2

- An adjustment of \$(6,550.13) was made to "Balance, January 1, 2012" because of prior report adjustments that were not carried forward in the fund balance.
- An adjustment of \$(6,171.97) was made to "State allocation" because this receipt was incorrectly deposited into the General Fund.
- An adjustment of \$(2.78) was made to "Interest on investments" because interest earnings were overstated.

2012 - Section 3

- An adjustment of \$(257.39) was made to "Prior year equipment balance" because of prior report adjustments that were not carried forward in the equipment balance.
- An adjustment of \$(1,234.39) was made to "Current year equipment allocation" because the state allocation from 2012 - Section 2, which is used to calculate this figure, was not deposited into the Liquid Fuels Tax Fund.

2013 - Section 1

- An adjustment of \$(11,864.88) was made to "Maintenance and repair of roads and bridges" because these expenditures were paid by electronic fund transfers from the General Fund.
- An adjustment of \$(650.45) was made to "Miscellaneous" because there were no miscellaneous expenditures.

2013 - Section 2

- An adjustment of \$(12,724.88) was made to “Balance, January 1, 2013” to reflect the adjustment made to the fund balance in 2012 - Section 2.
- An adjustment of \$(6,070.12) was made to “State allocation” because this receipt was incorrectly deposited into the General Fund.
- An adjustment of \$6,279.58 was made to “Miscellaneous” because this receipt was not reported.

2013 - Section 3

- An adjustment of \$(1,491.78) was made to “Prior year equipment balance” to reflect the adjustment made to the equipment balance in 2012 - Section 3.
- An adjustment of \$(1,214.02) was made to “Current year equipment allocation” because the state allocation from 2013 - Section 2, which is used to calculate this figure, was not deposited into the Liquid Fuels Tax Fund.

Good internal controls would ensure that the municipality complete its Forms MS-965 accurately and completely. The failure to properly complete Forms MS-965 increases the risk that errors or misappropriations may occur and remain undetected.

This condition occurred because the municipality failed to comply with our prior examination recommendation to ensure that its Forms MS-965 are complete and accurate.

Recommendation

We again recommend that the municipality ensure that its Forms MS-965 are complete and accurate.

FINDINGS AND RECOMMENDATIONS
FOR THE PERIOD
JANUARY 1, 2012 TO DECEMBER 31, 2013

**Finding No. 2 - Liquid Fuels Tax Fund Allocations Deposited Into The General Fund -
Recurring**

We cited the municipality for depositing its Liquid Fuels Tax Fund allocations into its General Fund in our prior report for the period January 1, 2009 to December 31, 2011. Our current examination again disclosed that the municipality deposited its 2012 Liquid Fuels Tax Fund allocation of \$6,171.97 that was received on March 30, 2012, and its 2013 Liquid Fuels Tax Fund allocation of \$6,070.12 that was received on April 1, 2013, into its General Fund, which is in noncompliance with the Liquid Fuels Tax Municipal Allocation Law.

The practice of depositing liquid fuels money into any account other than the Liquid Fuels Tax Fund account is contrary to the Act of June 1, 1956, P.L. (1955) 1944, 72 P.S. § 2615.5, known as the Liquid Fuels Tax Municipal Allocation Law, which states:

. . .each city, borough, town and township, shall . . . Establish and maintain a special fund into which the moneys [liquid fuels tax funds] . . . shall be deposited and into which no other moneys may be deposited or commingled . . .

The risk that Liquid Fuels Tax Fund money may be used for unauthorized purposes increases when liquid fuels money is commingled with other funds.

This condition occurred because the municipality failed to comply with our prior examination recommendation to deposit all Liquid Fuels Tax Fund money promptly into the Liquid Fuels Tax Fund.

The failure to follow the Liquid Fuels Tax Municipal Allocation Law as noted above could result in the municipality having to reimburse \$12,242.09 to its Liquid Fuels Tax Fund.

Recommendations

We recommend that the municipality reimburse \$12,242.09 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We again further recommend that, in the future, the municipality deposit all liquid fuels tax money promptly into the Liquid Fuels Tax Fund.

SUMMARY OF PRIOR EXAMINATION RECOMMENDATIONS
FOR THE PERIOD
JANUARY 1, 2012 TO DECEMBER 31, 2013

Summary Of Prior Examination Recommendations

In our prior report we recommended that the Department of Transportation review our examination finding to determine if the municipality should reimburse \$6,279.58 to its Liquid Fuels Tax Fund for depositing its 2011 Liquid Fuels Tax Fund allocation into the General Fund.

During our current examination we reviewed a letter dated September 30, 2013, from the Department of Transportation informing the municipality to reimburse \$6,279.58 to its Liquid Fuels Tax Fund. We noted that the municipality reimbursed this amount to its Liquid Fuels Tax Fund on November 21, 2013.

In our prior report we also recommended:

- That the municipality comply with the Department of Transportation's *Publication 9* to ensure allocations are received during the first week of April.
- That the municipality ensure that its Forms MS-965 are complete and accurate.
- That, in the future, the municipality deposit all liquid fuels tax money promptly into the Liquid Fuels Tax Fund.

During our current examination we noted that the municipality complied with our first bulleted recommendation but did not comply with our second and third bulleted recommendations (see Findings No. 1 and No. 2).
