LIQUID FUELS TAX FUND
BACKGROUND
FOR THE TWO YEARS ENDED
DECEMBER 31, 2007

Background

The Liquid Fuels Tax Municipal Allocation Law, Title 72 P.S. § 2615.5, provides municipalities other than counties (townships, boroughs, cities, towns, home rule, and optional plan governments) with an annual allocation of liquid fuels taxes from the state's Motor License Fund to be used for the maintenance and repair of streets, roads, and bridges for which the municipality is responsible. The allocation of these funds to municipalities is based: (1) 50 percent on the municipality's proportion of local road mileage to the total local road mileage in the state, and (2) 50 percent on the proportion of a municipality's population to the total population in the state.

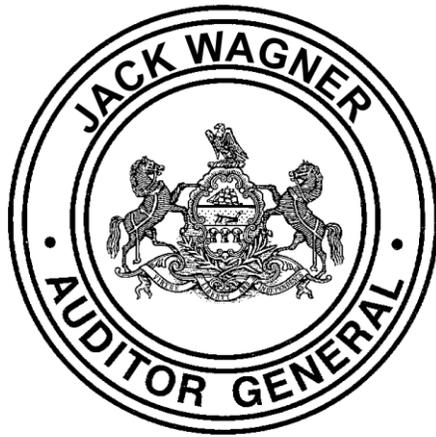

The Vehicle Code, Title 75 P.S. § 9511, provides municipalities with annual maintenance payments to be received from the Motor License Fund for functionally local highways that were transferred to a municipality from the Commonwealth of Pennsylvania.

Each municipality must deposit the Liquid Fuels Tax Fund money and annual maintenance payments that it receives into a special fund called the Municipal Liquid Fuels Tax Fund or State Fund. A municipality may not deposit any other monies into this fund except when the municipality does not have enough money in the special fund to meet the payments called for by its current annual budget for road and bridge purposes. In this case, the municipality may borrow money or transfer money from its General Fund to its Liquid Fuels Tax Fund.

The Department of Transportation has been given the regulatory authority for the administration of these funds. To qualify for its annual allocation, each municipality shall submit the following documents and information to the Department of Transportation:

1. Evidence that the treasurer is bonded in accordance with the law, or that its treasurer is a bank requiring no bond by January 31 of each year.
2. A report indicating the manner in which its liquid fuels tax allocation was expended in the previous year (Form MS-965) by January 31 of each year.
3. A report of elected and appointed officials by January 31 of each year.
4. A Survey of Financial Condition by March 15 of each year.

Department of Transportation *Publication 9* contains the policies and procedures that govern the use of Liquid Fuels Tax Fund money. However, if there is a difference between *Publication 9* and any legislation, the legislation shall govern.

Independent Auditor's Report

The Honorable Allen D. Biehler, P.E.
Secretary
Department of Transportation
Harrisburg, PA 17120

We examined the accompanying Forms MS-965 With Adjustments for the Liquid Fuels Tax Fund of the City of Allentown, Lehigh County, for the two years ended December 31, 2007. The municipality's management is responsible for the Forms MS-965. Our responsibility is to express an opinion on the Forms MS-965 With Adjustments based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. An examination includes examining, on a test basis, evidence supporting the City of Allentown, Lehigh County's Forms MS-965 for the two years ended December 31, 2007 and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

We are mandated by Section 403 of *The Fiscal Code*, 72 P.S. § 403, to audit each municipality's Liquid Fuels Tax Fund to ensure that funds received are expended in accordance with applicable laws and regulations. *Government Auditing Standards* issued by the Comptroller General of the United States include attestation engagements as a separate type of audit. An attestation engagement performed pursuant to *Government Auditing Standards* involves additional standards that exceed the standards provided by the American Institute of Certified Public Accountants. Accordingly, this attestation engagement complies with both *Government Auditing Standards* and Section 403 of *The Fiscal Code*.

As described in Note 4, the adjustments included on the Forms MS-965 With Adjustments are made by the Department of the Auditor General.

As discussed in Comment No. 2 of this report, during the prior examination period, the city expended \$229,600.37 from the Liquid Fuels Tax Fund for paving in excess of one inch without obtaining approval from the Department of Transportation. Additionally, the city expended \$125,054.11 from the Liquid Fuels Tax Fund for payroll without maintaining supporting documentation.

Independent Auditor's Report (Continued)

In our opinion, except for the matters discussed in the preceding paragraph, the Forms MS-965 With Adjustments present, in all material respects, the information required by the Pennsylvania Department of Transportation for the Liquid Fuels Tax Fund of the City of Allentown, Lehigh County, for the two years ended December 31, 2007, in conformity with the criteria set forth in Note 1.

In accordance with *Government Auditing Standards*, we are required to report findings of significant deficiencies in internal control, violations of provisions of contracts or grant agreements, and abuse that are material to the Forms MS-965 and any fraud and illegal acts that are more than inconsequential that come to our attention during our examination. We are also required to obtain the views of management on those matters. We performed our examination to express an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over reporting on the Forms MS-965 or on compliance and other matters; accordingly, we express no such opinions.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City of Allentown, Lehigh County's ability to initiate, authorize, record, process, or report data reliably in accordance with the applicable criteria such that there is more than a remote likelihood that a misstatement of the City of Allentown, Lehigh County's Forms MS-965 that is more than inconsequential will not be prevented or detected by the City of Allentown, Lehigh County's internal control. We consider the deficiency described in the finding below to be a significant deficiency in internal control over reporting on the Forms MS-965:

- Failure To Properly Prepare Forms MS-965.

A material weakness is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the Forms MS-965 will not be prevented or detected by the City of Allentown, Lehigh County's internal control. Our consideration of the internal control over reporting on the Forms MS-965 would not necessarily disclose all matters in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we consider the significant deficiency described above to be a material weakness.

Independent Auditor's Report (Continued)

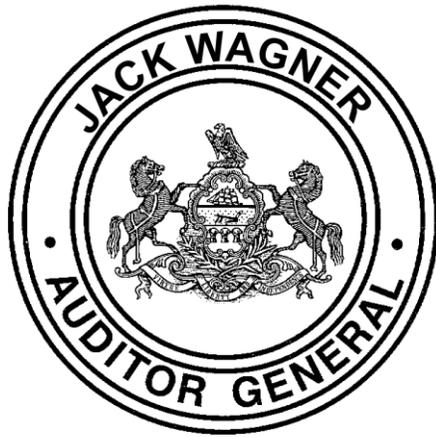

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we did note an other matter that, while not required to be included in this report by *Government Auditing Standards*, has been included in the finding below:

- Late Receipt Of Allocation.

This report is intended solely for the information and use of the Pennsylvania Department of Transportation and the management of the City of Allentown, Lehigh County, and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF ALLENTOWN
LEHIGH COUNTY
LIQUID FUELS TAX FUND
NOTES TO FORMS MS-965 WITH ADJUSTMENTS
FOR THE TWO YEARS ENDED
DECEMBER 31, 2007

1. Criteria

Section 1

This section of Form MS-965 With Adjustments provides a summary of Liquid Fuels Tax Fund expenditures by category. Categories requiring explanation include:

- Major equipment purchases are purchases of road machinery and road equipment that cost in excess of \$4,000.00.
- Minor equipment purchases are purchases of road machinery and road equipment that cost \$4,000.00 or less.
- Agility projects are exchanges of services with the Department of Transportation.

Section 2

This section of Form MS-965 With Adjustments provides information on the fund balance. Categories requiring explanation include:

- The state allocation is generally received from the Department of Transportation during the first week in April of each year. The amount the municipality receives is based half on its population and half on its road mileage.
- The turnback allocation is generally received from the Department of Transportation during the first week in April of each year. A municipality receives a yearly turnback allocation based on road mileage for all roads that were transferred to the municipality from the Commonwealth of Pennsylvania through the Highway Transfer Program.
- Expenditures include the total transferred from Section 1.

Section 3

This section of Form MS-965 With Adjustments determines if the municipality expended Liquid Fuels Tax Fund money in excess of the permissible amount for equipment and the balance that the municipality may carry forward for the purchase of equipment to the subsequent year.

CITY OF ALLENTOWN
LEHIGH COUNTY
LIQUID FUELS TAX FUND
NOTES TO FORMS MS-965 WITH ADJUSTMENTS
FOR THE TWO YEARS ENDED
DECEMBER 31, 2007

1. Criteria (Continued)

Section 3 (Continued)

Department of Transportation *Publication 9* requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year and 20 percent of the current year's Liquid Fuels Tax Fund allocation and, if applicable, 20 percent of the turnback allocation plus other Department of Transportation approved adjustments.

If the municipality spent in excess of the amount listed on Line 4, the excess must be reimbursed to the Liquid Fuels Tax Fund.

The equipment balance to be carried forward for the subsequent year is the lesser of the amount on Line 6 or the ending fund balance on Line 6 of Section 2, but not less than zero.

Basis Of Presentation

The financial activities of the municipality are accounted for in separate funds. The Liquid Fuels Tax Fund is used to account for state aid revenues from the Pennsylvania Department of Transportation used primarily for building and improving local roads and bridges. The Forms MS-965 have been prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation as a result of the Fuels Tax Act 655, dated 1956 and as amended, which does not constitute a complete presentation of the entity's assets, liabilities, expenses, and fund balance. Accordingly, the presentation of Forms MS-965 With Adjustments is restricted to the Liquid Fuels Tax Fund, which represents a segment of the entity.

Basis Of Accounting

The accompanying Forms MS-965 With Adjustments are prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation. Under this method, revenues are recognized when received and expenditures are recorded when paid.

1. Criteria (Continued)

General Fixed Assets

General fixed assets are recognized as expenditures at the time of purchase. No depreciation has been provided on the heavy equipment used to maintain and repair roads and bridges.

2. Deposits And Investments

The Third Class City Code, Title 53 P.S. § 36804.1, authorizes the city to deposit and invest its funds in the following:

- United States Treasury Bills.
- Short-term obligations of the United States government or its agencies or instrumentalities.
- Deposits in savings accounts or time deposits, other than certificates of deposit or share accounts of institutions having their principal place of business in the Commonwealth of Pennsylvania and insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance. For any amount above the insured maximum, the depository shall pledge approved collateral.
- Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, the Commonwealth of Pennsylvania, or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933, provided that the only investments of that company are in authorized investments for third class city funds.

2. Deposits And Investments(Continued)

- Certificates of deposit purchased from institutions that are insured by the FDIC or other like insurance to the extent that such accounts are so insured. For any amounts in excess of the insured maximum, such deposits shall be collateralized by a pledge or assignment of assets. Certificates of deposit may not exceed 20 percent of a bank's total capital surplus or 20 percent of a savings and loan's or savings bank's assets minus liabilities.
- Repurchase agreements that are fully collateralized by obligations of the United States of America.

Deposits

Deposits consist of receipts and deposits in financial institutions. Pennsylvania statutes require all deposits to be insured and, for any amount above the insured maximum, to be secured with approved collateral as defined.

There were no deposits exposed to custodial credit risk as of December 31, 2007. Custodial credit risk, as defined by GASB No. 40, includes deposits that are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the city's name.

Investments

The City is authorized to invest the city's Liquid Fuels Tax Fund in legal investments permitted by *The Third Class City Code* (see above). Liquid Fuels Tax Fund monies were deposited in the city's concentration account for investment purposes. Because the Liquid Fuels Tax Fund monies were deposited in the city's concentration account, a portion of all deposits and investments maintained by the county contained Liquid Fuels Tax Fund money. Because the Liquid Fuels Tax Fund is such a small component of the overall concentration account balance, the total balance of the each deposit and investment is not listed in this report.

There were no investments exposed to custodial credit risk as of December 31, 2007.

The city is required to provide information about the concentration of credit risk.

Fund Balance

The fund balance as of December 31, 2007 consists of the following:

Cash and Investments	<u>\$932,094.50</u>
----------------------	---------------------

3. Interest On Investments

Our examination disclosed that the city deposited idle liquid fuels tax money in interest-bearing accounts which earned \$49,065.17 during 2006, and \$10,334.18 during 2007, thus providing additional funds for road maintenance and repairs.

4. Adjustments

2006 - Section 1

An adjustment of \$(68,266.39) was made to "Maintenance and repair of roads and bridges" because these expenditures were overstated.

2006 - Section 2

An adjustment of \$(2,971.83) was made to "Balance, January 1, 2006" because of prior report adjustments that were not carried forward in the fund balance.

An adjustment of \$7,471.01 was made to "State allocation" because this receipt was understated.

An adjustment of \$15,179.69 was made to "Interest on investments" because interest earnings were understated.

2006 - Section 3

An adjustment of \$1,494.20 was made to "Current year equipment allocation" because the state allocation from 2006 - Section 2, which was used to calculate this figure, was understated.

4. Adjustments (Continued)

2007 - Section 1

An adjustment of \$(149,571.76) was made to “Maintenance and repair of roads and bridges” because these expenditures were overstated.

2007 - Section 2

An adjustment of \$87,945.26 was made to “Balance, January 1, 2007” to reflect the adjustments made in 2006 - Section 1 and 2006 - Section 2.

An adjustment of \$3,162.87 was made to “Interest on investments” because interest earnings were understated.

An adjustment of \$56,954.61 was made to “Miscellaneous” because a receipt for winter maintenance from the Commonwealth of Pennsylvania was not reported.

2007 - Section 3

An adjustment of \$1,494.20 was made to “Prior year equipment balance” to reflect the adjustment made in 2006 - Section 3.

5. Miscellaneous Receipts

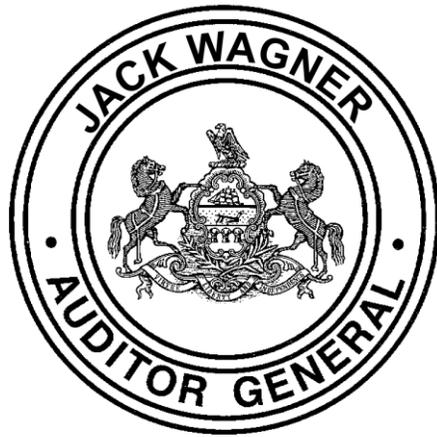

The following miscellaneous receipts were deposited into the Liquid Fuels Tax Fund during the examination period:

6. Allocated Pension Contribution

As part of the benefits paid on behalf of the city's Street Department employees, the city paid retirement benefits from its Liquid Fuels Tax Fund. On September 30, 2006 and September 27, 2007 the City of Allentown received \$9,043.00 and \$8,966.49, respectively, from the Municipal Pension System for the Liquid Fuels Tax Fund portion of the payments to this pension fund. The purpose of this state aid is to defray the city's pension costs.

Finding No. 1 - Failure To Properly Prepare Forms MS-965

Our examination disclosed that there were numerous errors made in the preparation of the municipality's 2006 and 2007 Forms MS-965. These adjustments, which are disclosed in Note 4, are as follows:

2006 - Section 1

- An adjustment of \$(68,266.39) was made to "Maintenance and repair of roads and bridges" because these expenditures were overstated.

2006 - Section 2

- An adjustment of \$(2,971.83) was made to "Balance, January 1, 2006" because of prior report adjustments that were not carried forward in the fund balance.
- An adjustment of \$7,471.01 was made to "State allocation" because this receipt was understated.
- An adjustment of \$15,179.69 was made to "Interest on investments" because interest earnings were understated.

2006 - Section 3

- An adjustment of \$1,494.20 was made to "Current year equipment allocation" because the state allocation from 2006 - Section 2, which is used to calculate this figure, was understated.

•

2007 - Section 1

- An adjustment of \$(149,571.76) was made to "Maintenance and repair of roads and bridges" because these expenditures were overstated.

Good internal controls ensure that the municipality complete its Forms MS-965 accurately and completely. The failure to properly complete Forms MS-965 increases the risk that errors or irregularities may occur and remain undetected.

Recommendation

We recommend that the municipality ensure that its Forms MS-965 are complete and accurate.

Management’s Response

The municipal officials stated:

The city will be assigning new personnel to complete Form MS-965 and work with the streets and treasury offices to complete the form.

Auditor’s Conclusion

During our next examination we will determine if the municipality complied with our recommendation.

FINDINGS AND RECOMMENDATIONS
FOR THE TWO YEARS ENDED
DECEMBER 31, 2007

Finding No. 2 - Late Receipt Of Allocation

Our examination disclosed that the 2007 Liquid Fuels Tax Fund allocation, which should have been distributed during the first week of April of that year, was not received until October 19, 2007, because the municipality failed to comply with the Department of Transportation's Regulation 449.12, which requires the timely filing of particular documents and information, among them:

- Evidence that its treasurer is bonded in accordance with the law or that its treasurer is a bank requiring no bond.
- A report indicating the manner in which its Liquid Fuels Tax Fund was expended in the preceding year.
- Survey of financial condition.
- Roster of municipal officials.

Because the municipality failed to file documents and information timely as noted above, the municipality did not have use of the allocation for more than six months. Furthermore, had the allocation been received timely, money may have been available for investment purposes, potentially earning interest income which could have been used for road maintenance and repairs.

Recommendation

We recommend that, in the future, the municipality comply with the Department of Transportation's Regulation 449.12 to ensure that the allocations are received during the first week in April as outlined above.

Management's Response

The municipal officials offered no formal response at this time.

COMMENTS
FOR THE TWO YEARS ENDED
DECEMBER 31, 2007

Comment No. 1 - Summary Of 2004 Audit Recommendation

In our 2004 report we recommended that the Department of Transportation review our audit finding to determine if the municipality should reimburse \$198,836.00 to its Liquid Fuels Tax Fund for a failure to maintain documentation to support transfers.

During our current examination we reviewed a letter dated November 9, 2007, from the Department of Transportation informing the municipality that reimbursement would not be required.

Comment No. 2 - Summary Of 2005 Examination Recommendations

In our 2005 report we recommended that the Department of Transportation review our examination finding to determine if the municipality should reimburse \$354,654.48 to its Liquid Fuels Tax Fund. This amount consists of \$229,600.37 for paving in excess of one inch without obtaining approval from the Department of Transportation and \$125,054.11 for payroll without maintaining supporting documentation.

During our current examination we reviewed a letter dated February 22, 2008, from the Department of Transportation informing the municipality to reimburse \$354,654.48 to its Liquid Fuels Tax Fund. As of the date of this report, the municipality had not reimbursed this amount to its Liquid Fuels Tax Fund.

In our prior report we also recommended:

- That the municipality comply with the application, approval, and specification requirements of the Department of Transportation.
- That the municipality ensure good internal control over payroll by maintaining daily time sheets that identify the nature of work performed and the location of work assignments.

During our current examination we noted that the municipality complied with our recommendations.
