District Response: (Textbox below will expand or attachments can be added as necessary)

The district agrees with the finding regarding the number of non-public school students transported for school years 2014-2015, 2015-2016, and 2016-2017. The district maintains that the reason for the inaccuracy of data reported is due to the fact that the transportation coordinator had been collecting the data for the eTran report and that no one else had verified the data for accuracy.

In 2017-2018 and 2018-2019, the data for eTran, including non-public students transported, was collected by the transportation coordinator and then reviewed by the operations coordinator, who then entered said data into the online eTran report. Moving forward, this will continue to be the procedure the district uses, in order to ensure accuracy of all data reported in the annual eTran report.

Note: Pursuant to Section 1.5 of Act 44, if the Auditee fails to respond to the Department's recommendations within **120 business days**, the Department will notify the Governor and the Chairpersons and Minority Chairpersons of the Appropriations Committees of the Senate and the House of Representatives, which may consider an Auditee's failure to respond to the Department's audit when determining the Auditee's future appropriations.
