EUGENE A. DePASQUALE  
AUDITOR GENERAL

Mr. Kevin McClure, President  
Norriton Fire Engine Company  
Relief Association  
Montgomery County

We have conducted a compliance audit of the Norriton Fire Engine Company Relief Association (relief association) pursuant to authority derived from Article VIII, Section 10 of the Constitution of the Commonwealth of Pennsylvania, Section 403 of The Fiscal Code, Act of April 9, 1929, (P.L. 343, No. 176), and mandated by the Volunteer Firefighters' Relief Association Act, as consolidated by the Act of November 23, 2010 (P.L. 1181, No. 118), at 35 Pa.C.S. § 7411 et seq., for the period January 1, 2016 to December 31, 2017.

The objectives of the audit were:

1. To determine if the relief association took appropriate corrective action to address the findings contained in our prior audit report.
2. To determine if the relief association complied with applicable state laws, contracts, bylaws, and administrative procedures as they relate to the receipt of state aid and the expenditure of relief association funds.

Our audit was limited to the areas related to the objectives identified above and was not required to be and was not conducted in accordance with Government Auditing Standards issued by the Comptroller General of the United States.

Relief association officers are responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the relief association's administration of state aid and accumulated relief funds complies with applicable state laws, contracts, bylaws, and administrative procedures, including the safeguarding of assets. Relief association officers are responsible for complying with applicable state laws, contracts, bylaws, and administrative procedures. It is our responsibility to perform procedures to obtain sufficient, appropriate evidence to the extent necessary to satisfy the audit objectives. We believe that our audit provides a reasonable basis for our conclusions.

Based on our audit procedures, we conclude that, for the period January 1, 2016 to December 31, 2017:

- The relief association took appropriate corrective action to address one of the two findings contained in our prior audit report. However, the relief association failed to take appropriate corrective action to address the one remaining finding contained in our prior audit report, as listed below and discussed in the Status of Prior Findings section of this report.
- The relief association, in all significant respects, complied with applicable state laws, contracts, bylaws, and administrative procedures as they relate to the receipt of state aid and the expenditure of relief association funds, except as noted in the finding listed below and discussed later in this report.

Finding – Noncompliance With Prior Audit Recommendation – Failure To Maintain A Complete And Accurate Equipment Roster

We have also issued the observation below as detailed in the Observation section of this report.

Observation – FDIC Coverage Limits Exceeded

The supplementary financial information contained in this report is presented for purposes of additional disclosure and analysis. We performed only limited procedures on the supplementary financial information and, accordingly, express no form of assurance on it.

The contents of this report were discussed with the management of the relief association and, where appropriate, their response has been included in the report. We would like to thank the relief association officials for the cooperation extended to us during the conduct of the audit.

December 26, 2018

EUGENE A. DEPASQUALE  
Auditor General

## BACKGROUND

Pursuant to Article VIII, Section 10 of the Constitution of the Commonwealth of Pennsylvania, Section 403 of The Fiscal Code, Act of April 9, 1929, (P.L. 343, No. 176), and the Volunteer Firefighters' Relief Association Act, as consolidated by the Act of November 23, 2010, (P.L. 1181, No. 118), at 35 Pa.C.S. § 7411 et seq., the Department of the Auditor General's duty is to audit the accounts and records of every volunteer firefighters' relief association to determine that funds received under the Foreign Fire Insurance Tax Distribution Law, Act of December 18, 1984, (P.L. 1005, No. 205), as amended, 53 P.S. § 895.701 et seq. (commonly referred to as Act 205), are properly expended.

The relief association is a charitable organization that was formed primarily to afford financial protection to volunteer firefighters and to encourage individuals to participate in volunteer fire service.

Act 118 governs the overall operation of volunteer firefighters' relief associations. Relief association bylaws define the specific operational procedures by which relief associations conduct business. To fulfill its primary purpose, Act 118 authorizes specific types of expenditures and prescribes appropriate volunteer firefighters' relief association investment options. Within the parameters established by Act 118, it is the responsibility of relief associations to choose investments in a proper and prudent manner.

Volunteer firefighters' relief associations receive public tax monies, and the association officers therefore have a responsibility to the public to conduct the association's financial affairs in a businesslike manner and to maintain sufficient financial records to support the propriety of all association transactions. Volunteer firefighters' relief association officers are also responsible for ensuring that the association operates in accordance with applicable state laws, contracts, bylaws and administrative procedures.

Act 205 sets forth the computation of the Foreign Fire Insurance Tax Distribution paid to each applicable municipality throughout the Commonwealth of Pennsylvania. The amount of the distribution is based upon the population of each municipality and the market value of real estate within the municipality. Upon receipt of this distribution, the municipality must allocate the funds to the volunteer firefighters' relief association of the fire service organization or fire service organizations that is or are recognized as providing the service to the municipality.

**BACKGROUND – (Continued)**

The relief association was allocated state aid from the following municipality:

<u>Municipality</u>	<u>County</u>	<u>2016</u>	<u>2017</u>
East Norriton Township	Montgomery	\$117,818	\$104,211

The volunteer firefighters’ relief association and the affiliated fire service organization are separate, legal entities. The relief association is affiliated with the following fire service organization:

Norriton Fire Engine Company

NORRITON FIRE ENGINE COMPANY RELIEF ASSOCIATION  
STATUS OF PRIOR FINDINGS

COMPLIANCE WITH PRIOR AUDIT FINDING AND RECOMMENDATION

The relief association has complied with one of the two prior audit findings and recommendations, as follows:

- Undocumented Expenditures

By receiving reimbursement of \$2,900 from the affiliated fire company for the undocumented expenditures that were made in the prior audit period.

NONCOMPLIANCE WITH PRIOR AUDIT FINDING AND RECOMMENDATION

The relief association has not complied with one of the two prior audit findings. This finding is noted below and discussed in detail in the Finding and Recommendation section of this report:

- Failure To Maintain A Complete And Accurate Equipment Roster

We are concerned by the relief association's failure to correct this previously reported audit finding. The association management should strive to implement the recommendation and corrective action noted in this audit report.

NORRITON FIRE ENGINE COMPANY RELIEF ASSOCIATION  
FINDING AND RECOMMENDATION

**Finding – Noncompliance With Prior Audit Recommendation – Failure To Maintain A Complete And Accurate Equipment Roster**

Condition: The relief association failed to maintain a complete and accurate roster of equipment owned by the relief association. Although a listing of relief association owned equipment was provided during the current audit period, it was incomplete because it did not contain the names of suppliers (vendors), dates of purchase, cost of equipment and serial numbers to accurately identify all equipment owned by the relief association. In 2016, the relief association officials did begin to record the required information on their equipment roster for current purchases; however, relief officials did not go back to record previous owned equipment, as required.

A similar condition was noted in our prior audit report.

Criteria: Prudent business practice dictates that the relief association should establish adequate internal control procedures to ensure the maintenance of a cumulative equipment roster of all items purchased by the relief association in order to provide an effective accounting control over the relief association's equipment. A cumulative equipment roster of all relief association equipment should include all of the following:

- Types of equipment purchased
- Dates of purchase
- Unit costs
- Names of suppliers
- Serial numbers, if applicable
- Current locations of items
- Final dispositions of sold or damaged equipment
- Evidence of the performance and results of an annual physical inventory

Cause: Even though notified of this condition during our prior audit, relief association officials again failed to establish adequate internal control procedures over equipment by requiring the maintenance of a cumulative equipment roster.

Effect: The continued failure to properly record equipment purchases in a detailed equipment roster prevents officials from effectively monitoring the relief association's equipment purchases. In addition, the failure to maintain a detailed equipment roster prevents adequate accountability for, and safeguarding of, relief association equipment.

NORRITON FIRE ENGINE COMPANY RELIEF ASSOCIATION  
FINDING AND RECOMMENDATION

**Finding – (Continued)**

Recommendation: We again recommend that the relief association officials maintain a cumulative equipment roster of all equipment owned by the relief association. For further guidance, please refer to the Auditor General's publication, MANAGEMENT GUIDELINES FOR VOLUNTEER FIREFIGHTERS' RELIEF ASSOCIATIONS.

Management's Response: Relief association management did not agree with the finding as presented at the audit exit conference and stated that it would be difficult to track prior relief purchases and an outside company was hired to list equipment purchased.

Auditor's Conclusion: We are concerned by the relief association's failure to correct this previously reported audit finding and strongly encourage timely implementation of the recommendation noted in this audit report.

NORRITON FIRE ENGINE COMPANY RELIEF ASSOCIATION  
OBSERVATION

**Observation – FDIC Coverage Limits Exceeded**

As disclosed in a verbal observation during the two previous audits, the relief association again failed to ensure that all cash deposits were below the FDIC coverage limits per account ownership in one institution. As of December 31, 2017, the relief association's ending cash balance with the financial institution amounted to \$327,865. Subsequent to the period under review, eight checks written by the relief association cleared the bank reducing the total cash balance to \$309,154.

The Federal Deposit Insurance Corporation (FDIC) is an independent agency of the United State government that protects the funds depositors place in banks and savings associations. FDIC insurance is backed by the full faith and credit of the United States government.

FDIC insurance covers all deposit accounts, including:

- Checking accounts
- Savings accounts
- Money market accounts
- Certificates of deposit

FDIC insurance does not cover other financial products and services that banks may offer, such as stocks, bonds, mutual funds, life insurance policies, annuities and securities. The standard insurance amount is \$250,000 per depositor, per insured bank, for each account ownership category.

Section 7413 of Act 118 states that the purpose of this subchapter is to encourage individuals to take part in the fire service as volunteer firefighters by establishing criteria and standards for orderly administration and conduct of affairs of firefighters' relief associations to ensure as far as circumstances will reasonable permit, that the funds shall be available for the protection of the volunteer firefighters' and their heirs.

Furthermore, prudent business practice dictates that in addition to performing monthly bank reconciliations, the relief association should ensure the relief association's cash balance does not exceed FDIC limits set by banking regulations. Lack of effective monitoring of relief association cash and investment assets places the relief association funds at greater risk for loss.

The relief association should monitor all cash and investment assets that are eligible for FDIC insurance and ensure the balance of those assets per banking institution does not exceed FDIC coverage limits.

NORRITON FIRE ENGINE COMPANY RELIEF ASSOCIATION  
SUPPLEMENTARY FINANCIAL INFORMATION  
CASH AND INVESTMENT BALANCES  
AS OF DECEMBER 31, 2017

Cash	\$ 310,548
Fair Value of Investments	<u>230,729</u>
Total Cash and Investments	<u>\$ 541,277</u>
