We have conducted a compliance audit of the Buckingham Township Police Pension Plan for the period January 1, 2017 to December 31, 2021. We also evaluated compliance with some requirements subsequent to that period when possible. The audit was conducted pursuant to authority derived from the Municipal Pension Plan Funding Standard and Recovery Act (Act 205 of 1984, as amended, 53 P.S. § 895.402(j)), which requires the Auditor General, as deemed necessary, to audit every municipality which receives general municipal pension system state aid and every municipal pension plan and fund in which general municipal pension system state aid is deposited. The audit was not conducted, nor was it required to be, in accordance with Government Auditing Standards issued by the Comptroller General of the United States. We planned and performed the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our finding and conclusions based on our audit objective. We believe that the evidence obtained provides a reasonable basis for our finding and conclusions based on our audit objective.

The objective of the audit was to determine if the pension plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies.

Our audit was limited to the areas related to the objective identified above. To determine whether the pension plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies, our methodology included the following:

- We determined whether state aid was properly determined and deposited in accordance with Act 205 requirements by verifying the annual deposit date of state aid and determining whether deposits were made within 30 days of receipt for all years within the period under audit.
We determined whether annual employer contributions were calculated and deposited in accordance with the plan’s governing document and applicable laws and regulations by examining the municipality’s calculation of the plan’s annual financial requirements and minimum municipal obligation (MMO) and comparing these calculated amounts to amounts actually budgeted and deposited into the pension plan as evidenced by supporting documentation.

We determined whether annual employee contributions were calculated, deducted, and deposited into the pension plan in accordance with the plan’s governing document and applicable laws and regulations by testing total members’ contributions on an annual basis using the rates obtained from the plan’s governing document in effect for all years within the period under audit and examining documents evidencing the deposit of these employee contributions into the pension plan.

We determined whether retirement benefits calculated for the plan members who retired or elected to vest during the current audit period represent payments to all (and only) those entitled to receive them and were properly determined and disbursed in accordance with the plan’s governing document, applicable laws, and regulations by recalculating the amount of the monthly pension benefits due to the retired individuals and comparing these amounts to supporting documentation evidencing amounts determined and actually paid to the recipient.

We determined whether the January 1, 2017 and January 1, 2019 actuarial valuation reports were prepared and submitted by March 31, 2018 and 2020, respectively, in accordance with Act 205 and whether selected information provided on these reports is accurate, complete, and in accordance with plan provisions to ensure compliance for participation in the state aid program by comparing selected information to supporting source documentation.

We determined whether provisions of the Deferred Retirement Option Plan (DROP) were in accordance with the provisions of Act 205 by examining provisions stated in the plan’s governing documents.

The Buckingham Township Police Pension Plan participates in the Pennsylvania Municipal Retirement System (PMRS), which is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating municipal pension plans. PMRS issues a separate Comprehensive Annual Financial Report, copies of which are available from the PMRS accounting office. PMRS’s financial statements were not audited by us and, accordingly, we express no opinion or other form of assurance on them.

Township officials are responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the Buckingham Township Police Pension Plan is administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and
local ordinances and policies. As previously described, we tested transactions, interviewed selected officials and performed procedures to the extent necessary to provide reasonable assurance of detecting instances of noncompliance with legal and regulatory requirements or noncompliance with provisions of contracts, administrative procedures, and local ordinances and policies that are significant within the context of the audit objective.

The results of our procedures indicated that, in all significant respects, the Buckingham Township Police Pension Plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies, except as noted in the following finding further discussed later in this report:

Finding - Inadequate Accounting/Reporting Over Activity Of The Pension Plan

The accompanying supplementary information is presented for purposes of additional analysis. We did not audit the information or conclude on it and, accordingly, express no form of assurance on it.

The contents of this report were discussed with officials of Buckingham Township and, where appropriate, their responses have been included in the report.

Background ......................................................................................................................................1

Finding and Recommendation:

Finding – Inadequate Accounting/Reporting Over Activity Of The Pension Plan ...............2

Supplementary Information .............................................................................................................4

Report Distribution List ...................................................................................................................8
On December 18, 1984, the Pennsylvania Legislature adopted the Municipal Pension Plan Funding Standard and Recovery Act (P.L. 1005, No. 205, as amended, 53 P.S. § 895.101 et seq.). The Act established mandatory actuarial reporting and funding requirements and a uniform basis for the distribution of state aid to Pennsylvania’s public pension plans.

Annual state aid allocations are provided from a 2 percent foreign (out-of-state) casualty insurance premium tax, a portion of the foreign (out-of-state) fire insurance tax designated for paid firefighters and any investment income earned on the collection of these taxes. Generally, municipal pension plans established prior to December 18, 1984, are eligible for state aid. For municipal pension plans established after that date, the sponsoring municipality must fund the plan for three plan years before it becomes eligible for state aid. In accordance with Act 205, a municipality’s annual state aid allocation cannot exceed its actual pension costs.

In addition to Act 205, the Buckingham Township Police Pension Plan is also governed by implementing regulations published at Title 16, Part IV of the Pennsylvania Code and applicable provisions of various other state statutes including, but not limited to, the following:

The Buckingham Township Police Pension Plan is a single-employer defined benefit pension plan locally controlled by the provisions of Ordinance No. 2019-03, effective July 1, 2019, and a separately executed plan agreement with the plan custodian, adopted pursuant to Act 15. Prior to July 1, 2019, the plan was locally controlled by Ordinance No. 2012-4 and a separately executed plan agreement with the plan custodian, adopted pursuant to Act 15. The plan was established October 30, 1973. Active members were required to contribute 3 percent of compensation to the plan for the years 2017 and 2018, 3.25 percent of compensation for the year 2019, 3.5 percent of compensation for the year 2020, and 3.75 percent of compensation for the year 2021. As of December 31, 2021, the plan had 18 active members, 2 terminated members eligible for vested benefits in the future, and 14 retirees receiving pension benefits.
BUCKINGHAM TOWNSHIP POLICE PENSION PLAN  
FINDING AND RECOMMENDATION

Finding – Inadequate Accounting/Reporting Over Activity Of The Pension Plan

Condition: The municipality’s accounting/reporting system did not provide effective control over the transactional activity of the pension plan during the year 2021. Municipal officials were unable to furnish annual financial statements or custodial account statements summarizing the financial activity of its pension plan.

Criteria: An adequate system of accounting and record keeping is a prerequisite for sound administration of pension plans. In addition, assets held in a custodial account for the purpose of plan management are to be governed by the terms and provisions of the account contract, provided that the terms and provisions of the contract are within the parameters of all prevailing pension legislation. Although the municipality may contract with a trustee to administer the financial management of the plan, the fiduciary responsibility for the plan remains with the municipality.

Cause: Municipal officials did not maintain a separate detailed accounting of pension plan transactions which, among other things, helps assure the production of proper financial statements to effectively monitor the annual activity of the pension plan. Additionally, municipal officials indicated that the plan’s custodian failed to provide copies of the custodial account transaction statements summarizing activity of the pension plan account for the year 2021.

Effect: Although we were able to obtain alternate documentation from the municipality to evidence the propriety of individual transactions tested during performance of the audit, the failure to maintain annual financial and/or account transaction statements prohibits municipal officials from effectively monitoring the plan’s financial operations and could lead to undetected errors or improprieties in account transactions.

Recommendation: We recommend that municipal officials establish and maintain a financial accounting and reporting system that allows the municipality to effectively monitor the plan’s financial operations, even in the absence of statements from the plan custodian. Municipal officials should refer to the Auditor General’s Bulletin No. 2-88 entitled “Preparation, Maintenance and Auditability of Financial Records,” for further guidance in establishing adequate accounting and record-keeping procedures. In addition, we recommend that municipal officials contact the plan custodian and obtain annual financial statements of the custodial account for its pension plan for the year 2021 to ensure the accuracy and propriety of the transaction activity.
Management’s Response: Buckingham Township officially disagrees with this finding. This statement refers to the lack of PMRS providing annual reporting on a timely basis as requested by the Department of the Auditor General. Buckingham Township has no control over the record-keeping practices of PMRS and has, on many occasions, expressed the adverse effects that untimely reporting has had on the Township. We feel that this finding is unreasonable. We have complied with all necessary requirements of the audit and have provided the auditor with all records needed to perform the audit. Buckingham Township prides itself in maintaining accurate accounting records and has received the Certificate of Achievement in Financial Reporting for our Annual Comprehensive Financial Report for 15 years in a row.

Auditor’s Conclusion: The department acknowledges the position of the township. As aforementioned earlier in this report, the department’s authority to audit every municipality which receives general municipal pension system state aid is derived from the Municipal Pension Plan Funding Standard and Recovery Act (Act 205 of 1984, as amended, 53 P.S. § 895.402(j)). The department does not have the authority to audit plan custodians. And as indicated in the Criteria above, although the municipality may contract with a trustee to administer the financial management of the plan, the fiduciary responsibility for the plan remains with the municipality.

It was noted that the plan custodian recently went through a substantial upgrade to the plan administration software and implemented a new accounting system. The modernization process, along with the COVID-19 pandemic, resulted in unforeseen delays in the year-end reporting process for financial statements and GASB 68 reports. In addition, the custodian expects 2021 financial reports to be distributed before the end of 2022. Compliance with the finding recommendation will be evaluated during our next audit of the plan.
SCHEDULE OF FUNDING PROGRESS

Historical trend information about the plan is presented herewith as supplementary information. It is intended to help users assess the plan’s funding status on a going-concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other state and local government retirement systems.

The actuarial information is required by Act 205 biennially. The historical information, beginning as of January 1, 2015, is as follows:

<table>
<thead>
<tr>
<th>Actuarial Valuation Date</th>
<th>Actuarial Value of Assets (a)</th>
<th>Actuarial Accrued Liability (AAL) - Entry Age (b)</th>
<th>Unfunded (Assets in Excess of) Actuarial Accrued Liability (b) - (a)</th>
<th>Funded Ratio (a)/(b)</th>
</tr>
</thead>
<tbody>
<tr>
<td>01-01-15</td>
<td>$ 10,296,107</td>
<td>$ 9,886,879</td>
<td>$ (409,228)</td>
<td>104.1%</td>
</tr>
<tr>
<td>01-01-17</td>
<td>11,738,014</td>
<td>10,904,120</td>
<td>(833,894)</td>
<td>107.6%</td>
</tr>
<tr>
<td>01-01-19</td>
<td>13,467,890</td>
<td>12,144,579</td>
<td>(1,323,311)</td>
<td>110.9%</td>
</tr>
</tbody>
</table>

The information presented represents the most recently filed actuarial information available and although the actuarial valuation report valued 01-01-21 was required to be filed by March 31, 2022 in accordance with Act 205, the plan custodian, along with its actuarial partners, is working as of the date of this report to finalize the required actuarial information.
The comparability of trend information is affected by changes in actuarial assumptions, benefit provisions, actuarial funding methods, accounting policies, and other changes. Those changes usually affect trends in contribution requirements and in ratios that use the actuarial accrued liability as a factor.

Analysis of the dollar amount of the actuarial value of assets, actuarial accrued liability, and unfunded (assets in excess of) actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability (Column 4) provides one indication of the plan’s funding status on a going-concern basis. Analysis of this percentage, over time, indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan.

* Due to the timing of this audit, covered-employee payroll for 2021 was not provided in this schedule
The information presented in the supplementary schedules was determined as part of the actuarial valuation at the date indicated. Additional information as of the latest actuarial valuation date follows:

Actuarial valuation date: January 1, 2019

Actuarial cost method: Entry age normal

Amortization method: Level dollar for plan bases and an average for Aggregate Gain/Loss. 10% of surplus is credited against aggregate cost where applicable.

Remaining amortization period: None

Asset valuation method: The Actuarial Value of Assets equal the sum of all audited reserve funds as of the valuation date, including Member, Municipal, Retired, Disability, and DROP Reserves, when applicable, and a one year administration expense reserve, plus the portion of any additional investment income to be distributed as excess interest, based on PMRS Policy Statement 05-2. This asset valuation is based on the unique legislative structure of PMRS and the administrative rules adopted by the PMRS Board in conjunction with Pennsylvania Municipal Retirement Law.¹

Actuarial assumptions:

- Investment rate of return *: 5.25%, compounded annually, net of investment and administration expenses.
- Projected salary increases *: 2.8%–7.05%
- * Includes inflation at 2.8%
- Cost-of-living adjustments: 2.8% per year, subject to plan limitations.

¹ The administrative rules adopted by the PMRS Board, which are not subject to comply with Actuarial Standards of Practice (ASOP), when defining the Actuarial Value of Assets (AVA), does not necessarily meet the requirement of ASOP 44 Selection and Use of Asset Valuation Methods for Pension Valuations. The AVA provided within this report follow the Pennsylvania Municipal Retirement Law and the PMRS policy statement.
