**TIMOTHY L. DEFOOR
AUDITOR GENERAL**

The Honorable Mayor and City Council
City of Shamokin
Northumberland County
Shamokin, PA 17872

We have conducted a compliance audit of the City of Shamokin Police Pension Plan for the period January 1, 2019 to December 31, 2020. We also evaluated compliance with some requirements subsequent to that period when possible. The audit was conducted pursuant to authority derived from the Municipal Pension Plan Funding Standard and Recovery Act (Act 205 of 1984, as amended, 53 P.S. § 895.402(j)), which requires the Auditor General, as deemed necessary, to audit every municipality which receives general municipal pension system state aid and every municipal pension plan and fund in which general municipal pension system state aid is deposited. The audit was not conducted, nor was it required to be, in accordance with Government Auditing Standards issued by the Comptroller General of the United States. We planned and performed the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our conclusions based on our audit objective. We believe that the evidence obtained provides a reasonable basis for our conclusions based on our audit objective.

The objective of the audit was to determine if the pension plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies.

Our audit was limited to the areas related to the objective identified above. To determine whether the pension plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies, our methodology included the following:

- We determined whether state aid was properly determined and deposited in accordance with Act 205 requirements by verifying the annual deposit date of state aid and determining whether deposits were made within 30 days of receipt for all years within the period under audit.

- We determined whether annual employer contributions were calculated and deposited in accordance with the plan's governing document and applicable laws and regulations by examining the municipality's calculation of the plan's annual financial requirements and minimum municipal obligation (MMO) and comparing these calculated amounts to amounts actually budgeted and deposited into the pension plan as evidenced by supporting documentation.
- We determined whether annual employee contributions were calculated, deducted, and deposited into the pension plan in accordance with the plan's governing document and applicable laws and regulations by testing total members' contributions on an annual basis using the rates obtained from the plan's governing document in effect for all years within the period under audit and examining documents evidencing the deposit of these employee contributions into the pension plan.
- We determined whether retirement benefits calculated for the plan member who retired and the plan members who elected to vest during the current audit period, represent payments to all (and only) those entitled to receive them and were properly determined and disbursed in accordance with the plan's governing document, applicable laws, and regulations by recalculating the amount of the monthly pension benefits due to the retired individuals and comparing these amounts to supporting documentation evidencing amounts determined and actually paid to the recipients.
- We determined whether the January 1, 2019 actuarial valuation report was prepared and submitted by March 31, 2020, in accordance with Act 205 and whether selected information provided on this report is accurate, complete, and in accordance with plan provisions to ensure compliance for participation in the state aid program by comparing selected information to supporting source documentation.
- We determined whether the terms of the plan's unallocated insurance contract, including ownership and any restrictions, were in compliance with plan provisions, investment policies, and state regulations by comparing the terms of the contract with the plan's provisions, investment policies, and state regulations.
- We determined whether the terms and methodologies of the issuance of pension obligation bonds by the municipality, and any restrictions, were in compliance with plan provisions and Act 205 through inquiry of plan officials and examination of supporting documentation for pension obligation bonds issued during the current audit period and through the completion of our fieldwork procedures.

City officials are responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the City of Shamokin Police Pension Plan is administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies. As previously described, we tested transactions, interviewed selected officials, and

performed procedures to the extent necessary to provide reasonable assurance of detecting instances of noncompliance with legal and regulatory requirements or noncompliance with provisions of contracts, administrative procedures, and local ordinances and policies that are significant within the context of the audit objective.

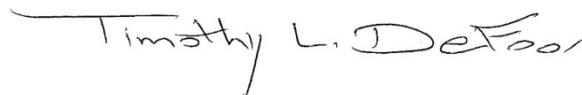

The results of our procedures indicated that, in all significant respects, the City of Shamokin Police Pension Plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies.

As previously noted, the objective of our audit of the City of Shamokin Officers' and Employees' Pension Plan was to determine compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies. Among several provisions relating to municipal pension plans, Act 205, which was amended on September 18, 2009 through the adoption of Act 44 of 2009, provides for the implementation of a distress recovery program. Three levels of distress have been established:

<u>Level</u>	<u>Indication</u>	<u>Funding Criteria</u>
I	Minimal distress	70-89%
II	Moderate distress	50-69%
III	Severe distress	Less than 50%

The accompanying supplementary information is presented for purposes of additional analysis. We did not audit the information or conclude on it and, accordingly, express no form of assurance on it. However, we are extremely concerned about the historical trend information contained in the schedule of funding progress included in this report which indicates a continued decline of assets available to satisfy the long-term liabilities of the plan. **The plan's funded ratio went from 64.1% as of January 1, 2015, to a ratio of 50.6% as of January 1, 2019, which is the most recent data available. Based on this information and the funded status of the city's officers' and employees pension plan, the Municipal Pension Reporting Program issued notification that the city is currently in Level II moderate distress status.** We encourage city officials to monitor the funding of the police pension plan to ensure its long-term financial stability.

The contents of this report were discussed with officials of City of Shamokin and, where appropriate, their responses have been included in the report. We would like to thank city officials for the cooperation extended to us during the conduct of the audit.

BACKGROUND

On December 18, 1984, the Pennsylvania Legislature adopted the Municipal Pension Plan Funding Standard and Recovery Act (P.L. 1005, No. 205, as amended, 53 P.S. § 895.101 et seq.). The Act established mandatory actuarial reporting and funding requirements and a uniform basis for the distribution of state aid to Pennsylvania's public pension plans.

Annual state aid allocations are provided from a 2 percent foreign (out-of-state) casualty insurance premium tax, a portion of the foreign (out-of-state) fire insurance tax designated for paid firefighters and any investment income earned on the collection of these taxes. Generally, municipal pension plans established prior to December 18, 1984, are eligible for state aid. For municipal pension plans established after that date, the sponsoring municipality must fund the plan for three plan years before it becomes eligible for state aid. In accordance with Act 205, a municipality's annual state aid allocation cannot exceed its actual pension costs.

In addition to Act 205, the City of Shamokin Police Pension Plan is also governed by implementing regulations published at Title 16, Part IV of the Pennsylvania Code and applicable provisions of various other state statutes including, but not limited to, the following:

Act 67 - The Third Class City Code, Act of November 24, 2015 (P.L. 242, No. 67),
as amended, 11 Pa. C.S. § 10101 et seq.

The City of Shamokin Police Pension Plan is a single-employer defined benefit pension plan locally controlled by the provisions of Chapter 20 of the city code, adopted by Ordinance No. 17-06, pursuant to Act 67. The plan is also affected by the provisions of collective bargaining agreements between the city and its police officers. The plan was established February 7, 1950. Active members are required to contribute 5 percent of compensation to the plan. As of December 31, 2020, the plan had 10 active members, 2 terminated members eligible for vested benefits in the future, and 20 retirees receiving pension benefits.

CITY OF SHAMOKIN POLICE PENSION PLAN
STATUS OF PRIOR FINDINGS

Status Of Prior Audit Recommendations

· Inconsistent And Unauthorized Pension Benefits

As disclosed in the January 1, 2015 to December 31, 2016 audit report, municipal officials took appropriate action to ensure the plan's benefit provisions contained in the plan's governing document and the collective bargaining agreement (CBA) are consistent and in accordance with the Third Class City Code. While these benefits will be in effect for future retirees, the pension plan continues to pay excess benefits to three existing retirees which amounted to \$63,418 during the current audit period. Since the city received state aid based on unit value during the audit period, it did not receive state aid attributable to the excess benefits provided. The Department will continue to monitor the effect of the excess benefits being paid to the existing retirees on the city's future state aid allocations; and

· Pension Benefits Not Authorized By The Third Class City Code

As disclosed in the January 1, 2015 to December 31, 2016 audit report, the city enacted Ordinance No. 17-06 which eliminated the inclusion of accumulated amounts paid for unused sick leave, vacation and personal leave or any other similar amounts and limited unused compensatory time to compensatory time earned during the computation period in the determination of pension calculations for retirees after January 1, 2018. In addition, municipal officials took appropriate action to ensure the pension benefits calculated for two police officers who retired during 2017 to 2018 and an additional police officer who retired on July 12, 2019 were in accordance with the provisions contained in the plan's governing document, the collective bargaining agreement, and the Third Class City Code. However, the pension plan continues to pay excess benefits to five existing retirees, which amounted to \$57,530 during our current audit period. Since the city received state aid based on unit value during the audit period, it did not receive state aid attributable to the unauthorized pension benefits provided. The Department will continue to monitor the effect of the excess benefits being paid to the existing retirees on the city's future state aid allocations.

CITY OF SHAMOKIN POLICE PENSION PLAN
 SUPPLEMENTARY INFORMATION
 (UNAUDITED)

SCHEDULE OF FUNDING PROGRESS

Historical trend information about the plan is presented herewith as supplementary information. It is intended to help users assess the plan's funding status on a going-concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other state and local government retirement systems.

The actuarial information is required by Act 205 biennially. The historical information, beginning as of January 1, 2015, is as follows:

	(1)	(2)	(3)	(4)
Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)	Unfunded (Assets in Excess of) Actuarial Accrued Liability (b) - (a)	Funded Ratio (a)/(b)
01-01-15	\$ 4,951,818	\$ 7,727,603	\$ 2,775,785	64.1%
01-01-17	4,519,672	8,300,625	3,780,953	54.4%
01-01-19	4,456,003	8,803,457	4,347,454	50.6%

CITY OF SHAMOKIN POLICE PENSION PLAN
SUPPLEMENTARY INFORMATION
(UNAUDITED)

The comparability of trend information is affected by changes in actuarial assumptions, benefit provisions, actuarial funding methods, accounting policies, and other changes. Those changes usually affect trends in contribution requirements and in ratios that use the actuarial accrued liability as a factor.

Analysis of the dollar amount of the actuarial value of assets, actuarial accrued liability, and unfunded (assets in excess of) actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability (Column 4) provides one indication of the plan's funding status on a going-concern basis. Analysis of this percentage, over time, indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan.
