LIQUID FUELS TAX FUND
BACKGROUND
FOR THE YEAR ENDED
DECEMBER 31, 2009

Background

The Liquid Fuels Tax Municipal Allocation Law, Title 72 P.S. § 2615.5, provides municipalities other than counties (townships, boroughs, cities, towns, home rule, and optional plan governments) with an annual allocation of liquid fuels taxes from the state's Motor License Fund to be used for the maintenance and repair of streets, roads, and bridges for which the municipality is responsible. The allocation of these funds to municipalities is based: (1) 50 percent on the municipality's proportion of local road mileage to the total local road mileage in the state, and (2) 50 percent on the proportion of a municipality's population to the total population in the state.

The Vehicle Code, Title 75 P.S. § 9511, provides municipalities with annual maintenance payments to be received from the Motor License Fund for functionally local highways that were transferred to a municipality from the Commonwealth of Pennsylvania.

Each municipality must deposit the Liquid Fuels Tax Fund money and annual maintenance payments that it receives into a special fund called the Municipal Liquid Fuels Tax Fund or State Fund. A municipality may not deposit any other monies into this fund except when the municipality does not have enough money in the special fund to meet the payments called for by its current annual budget for road and bridge purposes. In this case, the municipality may borrow money or transfer money from its General Fund to its Liquid Fuels Tax Fund.

The Department of Transportation has been given the regulatory authority for the administration of these funds. To qualify for its annual allocation, each municipality shall submit the following documents and information to the Department of Transportation:

1. Evidence that the treasurer is bonded in accordance with the law, or that its treasurer is a bank requiring no bond by January 31 of each year.
2. A report indicating the manner in which its liquid fuels tax allocation was expended in the previous year (Form MS-965) by January 31 of each year.
3. A report of elected and appointed officials by January 31 of each year.
4. A Survey of Financial Condition by March 15 of each year.

Department of Transportation *Publication 9* contains the policies and procedures that govern the use of Liquid Fuels Tax Fund money. However, if there is a difference between *Publication 9* and any legislation, the legislation shall govern.

Independent Auditor's Report

The Honorable Barry J. Schoch, P.E.
Secretary
Department of Transportation
Harrisburg, PA 17120

We examined the accompanying Forms MS-965 With Adjustments for the Liquid Fuels Tax Fund of the Township of Conneaut, Erie County, for the year ended December 31, 2009. The municipality's management is responsible for the Forms MS-965. Our responsibility is to express an opinion on the Forms MS-965 With Adjustments based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. An examination includes examining, on a test basis, evidence supporting the Township of Conneaut, Erie County's Forms MS-965 for the year ended December 31, 2009 and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

We are mandated by Section 403 of *The Fiscal Code*, 72 P.S. § 403, to audit each municipality's Liquid Fuels Tax Fund to ensure that funds received are expended in accordance with applicable laws and regulations. *Government Auditing Standards* issued by the Comptroller General of the United States include attestation engagements as a separate type of audit. An attestation engagement performed pursuant to *Government Auditing Standards* involves additional standards that exceed the standards provided by the American Institute of Certified Public Accountants. Accordingly, this attestation engagement complies with both *Government Auditing Standards* and Section 403 of *The Fiscal Code*.

As described in Note 4, the adjustments included on the Forms MS-965 With Adjustments are made by the Department of the Auditor General.

In our opinion, the Forms MS-965 With Adjustments present, in all material respects, the information required by the Pennsylvania Department of Transportation for the Liquid Fuels Tax Fund of the Township of Conneaut, Erie County, for the year ended December 31, 2009, in conformity with the criteria set forth in Note 1.

Independent Auditor's Report (Continued)

In accordance with *Government Auditing Standards*, we are required to report findings of significant deficiencies in internal control, violations of provisions of contracts or grant agreements, and abuse that are material to the Forms MS-965 and any fraud and illegal acts that are more than inconsequential that come to our attention during our examination. We are also required to obtain the views of management on those matters. We performed our examination to express an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over reporting on the Forms MS-965 or on compliance and other matters; accordingly, we express no such opinions.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Township of Conneaut, Erie County's ability to initiate, authorize, record, process, or report data reliably in accordance with the applicable criteria such that there is more than a remote likelihood that a misstatement of the Township of Conneaut, Erie County's Forms MS-965 that is more than inconsequential will not be prevented or detected by the Township of Conneaut, Erie County's internal control. We consider the deficiencies described in the findings below to be significant deficiencies in internal control over reporting on the Forms MS-965:

- Failure To Properly Prepare Form MS-965.
- Duplicate Payment Of Invoice.

A material weakness is a significant deficiency or combination of significant deficiencies that results in more than a remote likelihood that a material misstatement of the Forms MS-965 will not be prevented or detected by the Township of Conneaut, Erie County's internal control. Our consideration of the internal control over reporting on the Forms MS-965 would not necessarily disclose all matters in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above we consider the first bulleted deficiency to be a material weakness.

Independent Auditor's Report (Continued)

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we did note an other matter that, while not required to be included in this report by *Government Auditing Standards*, has been included in the finding below:

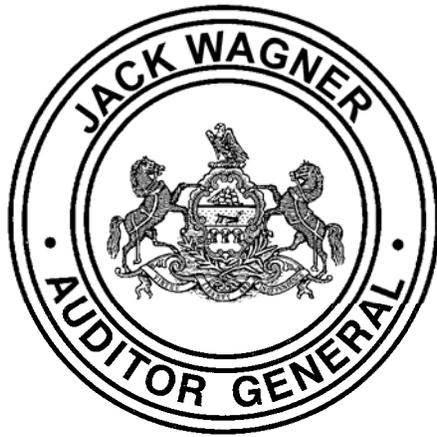

- Nonpermissible Expenditures.

We are concerned in light of the municipality's failure to correct a previously reported finding regarding the failure to properly prepare the Form MS-965. During our current examination period the municipality failed to properly prepare Form MS-965, made a duplicate payment of an invoice, and made nonpermissible expenditures. The municipality should strive to implement the recommendations and corrective actions noted in this report.

This report is intended solely for the information and use of the Pennsylvania Department of Transportation and the management of the Township of Conneaut, Erie County, and is not intended to be and should not be used by anyone other than these specified parties.

TOWNSHIP OF CONNEAUT
ERIE COUNTY
LIQUID FUELS TAX FUND
NOTES TO FORM MS-965 WITH ADJUSTMENTS
FOR THE YEAR ENDED
DECEMBER 31, 2009

1. Criteria

Section 1

This section of Form MS-965 With Adjustments provides a summary of Liquid Fuels Tax Fund expenditures by category. Categories requiring explanation include:

- Major equipment purchases are purchases of road machinery and road equipment that cost in excess of \$4,000.00.
- Minor equipment purchases are purchases of road machinery and road equipment that cost \$4,000.00 or less.
- Agility projects are exchanges of services with the Department of Transportation.

Section 2

This section of Form MS-965 With Adjustments provides information on the fund balance. Categories requiring explanation include:

- The state allocation is generally received from the Department of Transportation during the first week in April of each year. The amount the municipality receives is based half on its population and half on its road mileage.
- The turnback allocation is generally received from the Department of Transportation during the first week in April of each year. A municipality receives a yearly turnback allocation based on road mileage for all roads that were transferred to the municipality from the Commonwealth of Pennsylvania through the Highway Transfer Program.
- Expenditures include the total transferred from Section 1.

Section 3

This section of Form MS-965 With Adjustments determines if the municipality expended Liquid Fuels Tax Fund money in excess of the permissible amount for equipment and the balance that the municipality may carry forward for the purchase of equipment to the subsequent year.

LIQUID FUELS TAX FUND
NOTES TO FORM MS-965 WITH ADJUSTMENTS
FOR THE YEAR ENDED

1. Criteria (Continued)

Section 3 (Continued)

Department of Transportation *Publication 9* requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year and 20 percent of the current year's Liquid Fuels Tax Fund allocation and, if applicable, 20 percent of the turnback allocation plus other Department of Transportation approved adjustments.

If the municipality spent in excess of the amount listed on Line 4, the excess must be reimbursed to the Liquid Fuels Tax Fund.

The equipment balance to be carried forward for the subsequent year is the lesser of the amount on Line 6 or the ending fund balance on Line 6 of Section 2, but not less than zero.

Basis Of Presentation

The financial activities of the municipality are accounted for in separate funds. The Liquid Fuels Tax Fund is used to account for state aid revenues from the Pennsylvania Department of Transportation used primarily for building and improving local roads and bridges. The Form MS-965 has been prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation as a result of the Fuels Tax Act 655, dated 1956 and as amended, which does not constitute a complete presentation of the entity's assets, liabilities, expenses, and fund balance. Accordingly, the presentation of Form MS-965 With Adjustments is restricted to the Liquid Fuels Tax Fund, which represents a segment of the entity.

Basis Of Accounting

The accompanying Form MS-965 With Adjustments is prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation. Under this method, revenues are recognized when received and expenditures are recorded when paid.

1. Criteria (Continued)

General Fixed Assets

General fixed assets are recognized as expenditures at the time of purchase. No depreciation has been provided on the heavy equipment used to maintain and repair roads and bridges.

2. Deposits

The Second Class Township Code, Title 53 P.S. § 68204, authorizes the township to deposit its funds in the following:

- Deposits in savings accounts or time deposits, other than certificates of deposit or share accounts of institutions having their principal place of business in the Commonwealth of Pennsylvania and insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance. For any amount above the insured maximum, the depository shall pledge approved collateral.
- Certificates of deposit purchased from institutions insured by the FDIC or other like insurance to the extent that such accounts are so insured. For any amounts in excess of the insured maximum, such deposits shall be collateralized by a pledge or assignment of assets. Certificates of deposit may not exceed 20 percent of a bank's total capital surplus or 20 percent of a savings and loan's or savings bank's assets minus liabilities.

Deposits consist of receipts and deposits in a financial institution. Pennsylvania statutes require all deposits to be insured and, for any amount above the insured maximum, to be secured with approved collateral as defined.

There were no deposits exposed to custodial credit risk as of December 31, 2009. Custodial credit risk, as defined by GASB No. 40, includes deposits that are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the municipality's name.

Fund Balance

The fund balance consists of the following:

Cash	<u>\$24,566.39</u>
------	--------------------

3. Interest On Investments

Our examination disclosed that the municipality deposited idle liquid fuels tax money in an interest-bearing account which earned \$199.91 during 2009, thus providing additional funds for road maintenance and repairs.

4. Adjustments

Section 1

An adjustment of \$(15,738.72) was made to "Major equipment purchases" because expenditures of \$11,125.55 for storm sewers and drains, \$1,403.17 for repairs of tools and machinery, and \$3,210.00 for miscellaneous expenditures were misclassified.

An adjustment of \$(9,762.42) was made to "Minor equipment purchases" because expenditures of \$814.18 for storm sewers and drains, \$8,837.97 for repairs of tools and machinery, and \$110.27 for miscellaneous expenditures were misclassified.

An adjustment of \$11,939.73 was made to "Storm sewers and drains" because expenditures of \$11,125.55 were misclassified as major equipment purchases and expenditures of \$814.18 were misclassified as minor equipment purchases.

An adjustment of \$10,241.14 was made to "Repairs of tool and machinery" because expenditures of \$1,403.17 were misclassified as major equipment purchases and expenditures of \$8,837.97 were misclassified as minor equipment purchases.

An adjustment of \$555.58 was made to "Maintenance and repair of roads and bridges" because expenditures of \$551.68 were misclassified as miscellaneous, check No. 1826 was reported as \$440.40 but was issued for \$444.40, and check No. 1901 was reported as \$539.37, but was issued for \$539.27.

4. Adjustments (Continued)

Section 1 (Continued)

An adjustment of \$2,768.59 was made to “Miscellaneous” because expenditures of \$3,210.00 were misclassified as major equipment purchases, expenditures of \$110.27 were misclassified as minor equipment purchases, and expenditures of \$551.68 for maintenance and repair of roads and bridges were misclassified.

Section 2

An adjustment of \$18.00 was made to “Balance, January 1, 2009” because of prior report adjustments that were not carried forward in the fund balance.

Section 3

An adjustment of \$9,350.00 was made to “Prior year equipment balance” because an incorrect equipment balance was carried forward.

An adjustment of \$(15,738.72) was made to “Major equipment expenditures” to reflect the adjustment made to major equipment purchases in 2009 - Section 1.

5. Miscellaneous Receipts

The following miscellaneous receipts were deposited into the Liquid Fuels Tax Fund during the examination period:

<u>Source</u>	<u>Description</u>	<u>Amount</u>
Department of Transportation	Winter maintenance agreement	\$24,696.78
County of Erie	County aid	<u>182.00</u>

6. Lease-Purchase Agreement

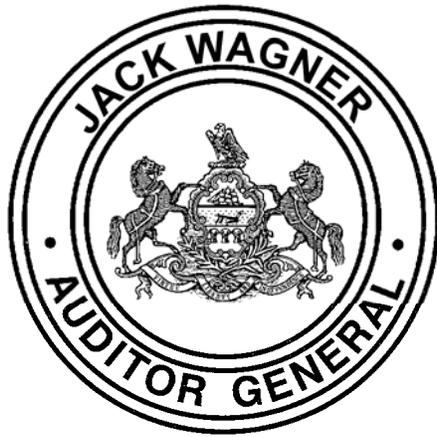

On May 15, 2006, the municipality entered into a lease-purchase agreement with Harco Leasing Company to purchase a 2007 International truck for \$103,200.96. The agreement was for a term of six years at an interest rate of 5.08 percent. One principal payment of \$19,178.60 was due initially followed by five principal and interest payments of \$19,449.99 which are due annually. Prior years' principal and interest payments from the Liquid Fuels Tax Fund were \$50,313.13 and \$7,765.45, respectively.

During the current examination period the municipality paid principal of \$16,763.28 and interest of \$2,686.71 from the Liquid Fuels Tax Fund. These amounts are reflected in major equipment purchases on the 2009 Form MS-965 - Section 1. The outstanding balance of the lease-purchase agreement as of December 31, 2009 was \$36,124.55, plus interest.

7. Miscellaneous Expenditures

The following miscellaneous expenditures were paid from the Liquid Fuels Tax Fund during the examination period.

<u>Payee</u>	<u>Description</u>	<u>2009</u>

FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED
DECEMBER 31, 2009

Finding No. 1 - Failure To Properly Prepare Form MS-965

Our examination disclosed that there were numerous errors made in the preparation of the municipality's 2009 Form MS-965. These adjustments, which are disclosed in Note 4, are as follows:

Section 1

- An adjustment of \$(15,738.72) was made to "Major equipment purchases" because expenditures of \$11,125.55 for storm sewers and drains, \$1,403.17 for repairs of tools and machinery, and \$3,210.00 for miscellaneous expenditures were misclassified.
- An adjustment of \$(9,762.42) was made to "Minor equipment purchases" because expenditures of \$814.18 for storm sewers and drains, \$8,837.97 for repairs of tools and machinery, and \$110.27 for miscellaneous expenditures were misclassified.
- An adjustment of \$11,939.73 was made to "Storm sewers and drains" because expenditures of \$11,125.55 were misclassified as major equipment purchases and expenditures of \$814.18 were misclassified as minor equipment purchases.
- An adjustment of \$10,241.14 was made to "Repairs of tool and machinery" because expenditures of \$1,403.17 were misclassified as major equipment purchases and expenditures of \$8,837.97 were misclassified as minor equipment purchases.
- An adjustment of \$555.58 was made to "Maintenance and repair of roads and bridges" because expenditures of \$551.68 were misclassified as miscellaneous, check No. 1826 was reported as \$440.40 but was issued for \$444.40, and check No. 1901 was reported as \$539.37, but was issued for \$539.27.
- An adjustment of \$2,768.59 was made to "Miscellaneous" because expenditures of \$3,210.00 were misclassified as major equipment purchases, expenditures of \$110.27 were misclassified as minor equipment purchases, and expenditures of \$551.68 for maintenance and repair of roads and bridges were misclassified.

Section 2

- An adjustment of \$18.00 was made to "Balance, January 1, 2009" because of prior report adjustments that were not carried forward in the fund balance.

Good internal controls ensure that the municipality complete its Form MS-965 accurately and completely. The failure to properly complete Form MS-965 increases the risk that errors or misappropriations may occur and remain undetected.

A similar finding was also written in our prior report.

Recommendation

We again recommend that the municipality ensure that its Form MS-965 is complete and accurate.

Management’s Response

The municipal officials stated:

Many of the reporting’s were placed in the wrong account categories for 2009.
The correct account categories were explained and understood after 2009.

Auditor’s Conclusion

During our next examination we will determine if the municipality complied with our recommendation.

Finding No. 2 - Duplicate Payment Of Invoice

Our examination disclosed that the municipality paid the following invoice twice:

<u>Invoice Number</u>	<u>First Check No.</u>	<u>First Date Paid</u>	<u>Second Check No.</u>	<u>Second Date Paid</u>	<u>Invoice Amount</u>
119289	1707	02/20/09	1713	03/06/09	<u>\$110.27</u>

Although this money should be reimbursed to the Liquid Fuels Tax Fund, the primary concern is the inadequate internal controls which enabled the duplicate payment of \$110.27 to remain undetected.

Good internal controls ensure that all invoices are reviewed timely to avoid duplicate payments. The failure to follow this procedure increases the possibility that duplicate payments can be made on vendor invoices and go undetected for long periods of time.

Recommendations

We recommend that the municipality reimburse \$110.27 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation. We also recommend that the municipal officials contact the vendor as soon as possible to obtain reimbursement.

We further recommend that the municipality establish and implement internal controls to ensure vendor invoices are reviewed timely to avoid duplicate payments.

Management's Response

The municipal officials stated:

The item which was \$110.27 and paid for was returned. A second invoice was received and we should not have paid the \$110.27. A refund for \$110.27 was received and deposited in the General Account. It will be transferred to the Liquid Fuels Account in 2011.

Finding No. 3 - Nonpermissible Expenditures

Our examination disclosed that the municipality expended \$3,210.00 from the Liquid Fuels Tax Fund for insurance policy renewal premiums for buildings and equipment, which are nonpermissible expenditures.

The Liquid Fuels Tax Municipal Allocation Law, 72 P.S. § 2615.4, provides, in part, that monies herein allocated may be used only for construction, reconstruction, maintenance, and repairs of such public roads or streets, including bridges, culverts and drainage structures, for which they are legally responsible. Also permitted are expenditures involving acquisition, maintenance, repairs and operation of street signs, traffic signs, traffic signal control systems, road equipment, and snow fences.

The Department of Transportation has been statutorily authorized to promulgate regulations concerning the administration of Liquid Fuels Tax Fund money and has determined that certain items, including insurance premiums, are outside the scope of permissible expenditures.

The failure to follow the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations as noted above could result in the municipality having to reimburse \$3,210.00 to its Liquid Fuels Tax Fund

Recommendations

We recommend that the municipality reimburse \$3,210.00 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We further recommend that, in the future, the municipality comply with the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations regarding permissible expenditures.

Management's Response

The municipal officials stated:

Insurance for the buildings and equipment was wrongly paid from the Liquid Fuels Account. We will transfer the amount from the General Account to Liquid Fuels in 2011.
