EUGENE A. DePASQUALE
AUDITOR GENERAL

Independent Auditor's Report

The Honorable Leslie Richards
Secretary
Department of Transportation
Harrisburg, PA 17120

We examined the accompanying Forms MS-991 With Adjustments for the Liquid Fuels Tax Fund and the Reports of Act 44 and Act 89 Tax Funds With Adjustments of Montgomery County for the period January 1, 2015 to December 31, 2016. The county's management is responsible for presenting the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Fund, in accordance with the criteria set forth in Note 1. Our responsibility is to express an opinion on the Forms MS-991 With Adjustments and the Reports of Act 44 and Act 89 Tax Funds With Adjustments based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Forms MS-991 and Reports of Act 44 and Act 89 Tax Funds are in accordance with the criteria described above, in all material respects. An examination involves performing procedures to obtain evidence about the Forms MS-991 and Reports of Act 44 and Act 89 Tax Funds. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material misstatement of the Forms MS-991 and Reports of Act 44 and Act 89 Tax Funds, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are mandated by Section 403 of *The Fiscal Code*, 72 P.S. § 403, to audit each county's Liquid Fuels, Act 44, and Act 89 Tax Funds to ensure that funds received are expended in accordance with applicable laws and regulations. *Government Auditing Standards* issued by the Comptroller General of the United States include attestation engagements as a separate type of audit. An attestation engagement performed pursuant to *Government Auditing Standards* involves additional standards that exceed the standards provided by the American Institute of Certified Public Accountants. Accordingly, this attestation engagement complies with both *Government Auditing Standards* and Section 403 of *The Fiscal Code*.

Independent Auditor's Report (Continued)

As described in Note 4, the adjustments included on the Forms MS-991 With Adjustments and the Reports of Act 44 and Act 89 Tax Funds With Adjustments are made by the Department of the Auditor General.

As discussed in the Finding No. 1, on January 14, 2016 and December 6, 2016, the county deposited its Act 44 allocations of \$220,340.13 and \$215,868.75, respectively, into its Liquid Fuels Tax Fund. Additionally, on June 7, 2016 and December 6, 2016, the county deposited its Act 89 allocations of \$191,404.85 and \$188,906.74, respectively, into its Liquid Fuels Tax Fund. Depositing Act 44 and Act 89 funds into its Liquid Fuels Tax Fund is in noncompliance with the Department of Transportation's *Publication 9*.

In our opinion, except for the matters discussed in the preceding paragraph, the Forms MS-991 With Adjustments and the Reports of Act 44 and Act 89 Tax Funds With Adjustments present, in all material respects, the information required by the Pennsylvania Department of Transportation for the Liquid Fuels, Act 44, and Act 89 Tax Funds of Montgomery County for the period January 1, 2015 to December 31, 2016, in accordance with the criteria set forth in Note 1.

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds are presented in accordance with the criteria described above and not for the purpose of expressing an opinion on the internal control over reporting on the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds or on compliance and other matters; accordingly, we express no such opinions.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Independent Auditor's Report (Continued)

Our consideration of internal control over reporting on the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds was for the limited purpose of expressing an opinion on whether the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds are presented in accordance with the criteria described above and would not necessarily identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our engagement we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

As part of obtaining reasonable assurance about whether the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds are free from material misstatement, we performed tests of Montgomery County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of amounts on the Forms MS-991 and the Reports of Act 44 and Act 89 Tax Funds. However, providing an opinion on compliance with those provisions was not an objective of our engagement, and accordingly, we do not express such an opinion. The results of our tests disclosed the following instance of noncompliance that is required to be reported under *Government Auditing Standards*:

- Act 44 and Act 89 Allocations Deposited Into The Liquid Fuels Tax Fund.

We also noted a matter that, while not required to be included in this report by *Government Auditing Standards*, has been included in the finding below:

- Idle Funds Held In A Noninterest-Bearing Account - Recurring.

The examination finding for idle funds held in a noninterest-bearing account cites a condition that existed in the operation of the municipality during the previous four engagement periods and was not corrected during the current examination period. The municipality should strive to comply with the recommendations noted in this report.

The purpose of this report is to determine whether the county's Liquid Fuels Tax Fund, Act 44 Tax Fund, and Act 89 Tax Fund money is spent in accordance with the laws and regulations identified in the Background section of this report and the Department of Transportation's *Publication 9*. This report is not suitable for any other purpose.

We appreciate the courtesy extended by Montgomery County to us during the course of our examination. If you have any questions, please feel free to contact Michael B. Kashishian, CPA, CGAP, CFE, Director, Bureau of County Audits, at 717-787-1363.

MONTGOMERY COUNTY
LIQUID FUELS, ACT 44,
AND ACT 89 TAX FUNDS
BACKGROUND
FOR THE PERIOD
JANUARY 1, 2015 TO DECEMBER 31, 2016

Background

The Vehicle Code makes provisions and provides funding for County Liquid Fuels, Act 44, and Act 89 Programs. The Pennsylvania Department of Transportation has regulatory administration and oversight of the funds supporting these county programs. Counties are required to comply with those provisions and to report annually.

The Vehicle Code imposes a state tax on liquid fuels and fuels used or sold and delivered by distributors within the Commonwealth (75 Pa. C.S. § 9004(a)). One-half cent of the tax collected on each gallon of liquid fuels is deposited in the Commonwealth's Liquid Fuels Tax Fund. *The Vehicle Code* further provides for the disposition and use of this tax, including the allocations to counties in June and December of each year to fund construction, reconstruction, maintenance and repair of county roads, streets and bridges. The allocation to the respective counties is made in the ratio that the average amount returned to each county during the three preceding years bears to the average amount returned to all counties during the three preceding years (75 Pa C.S. § 9010).

The Vehicle Code, as amended by Act 44 of 2007 (July 18, 2007, P.L.169), requires the Pennsylvania Turnpike Commission to make annual contributions for the benefit of the Pennsylvania Department of Transportation's Motor License Fund, and further requires the Department of Transportation to distribute \$5,000,000 of the annual contribution to counties (75 Pa. C.S. § 8915.6). The annual distribution to counties is determined based upon the ratio of square footage of deck area of a county's county-owned bridges to the total square footage of deck area of county-owned bridges throughout the Commonwealth. The reporting of the square footage of deck area of a county's county-owned bridges is required as part of the National Bridge Inspection Standards Program.

The Vehicle Code, as amended by Act 89 of 2013 (November 25, 2013, P.L. 974, No.89) provides for semi-annual allocations to all that own public bridges (75 Pa. C.S. § 9502(a)(2)(iv)). These allocations are made on the first business day of June and December each year. The Commonwealth allocates the funds available through Act 89 to counties based upon the ratio of square footage of deck area of a county's county-owned bridges to the total square footage of deck area of county-owned bridges throughout the Commonwealth. The reporting of the square footage of deck area of a county's county-owned bridges is required as part of the National Bridge Inspection Standards Program.

1. Criteria

A. *The Vehicle Code* prescribes criteria for liquid fuels program funds (75 Pa C.S. § 9010). The Pennsylvania Department of Transportation's *Publication 9* provides more specific policies and procedures to counties for the administration and reporting of the liquid fuels program funds. In the event of any discrepancies between the two, the legislation governs.

(1) Funds received by the counties must be deposited in a special fund designated as the County Liquid Fuels Tax Fund and no other money may be deposited and commingled. Money should be invested to earn interest until expended.

- For purposes of payments under (2), below, the county may borrow and place in the special fund money not in excess of the liquid fuels tax funds to be received during the current calendar year.

(2) Payments from the special fund may be used for:

- construction, reconstruction, maintenance and repair of roads, highways, bridges and curb ramps from a road or highway to provide for access by individuals with disabilities consistent with Federal and State law;
- property damages and compensation of viewers for services in eminent domain proceedings involving roads, highways, and bridges;
- construction, reconstruction, operation and maintenance of publicly owned ferryboat operations;
- interest and principal payments on road, bridge, or publicly owned ferryboat operation bonds or sinking fund charges;
- acquisition, maintenance, repair and operation of traffic signs and signals;
- erection and maintenance of stop and go signal lights, blinkers and other like traffic control devices;
- indirect costs, including benefit costs, overhead and other administrative charges for those county employees directly engaged in eligible projects, not to exceed 10 percent of the yearly allocation to the county; and

1. Criteria (Continued)

- individual vehicle liability insurance for equipment purchased under the fund, not to exceed 10 percent of the yearly allocation to the county.
- (3) Counties may not make expenditures from the special fund for new construction on roads, bridges, curb ramps, or publicly owned ferryboat operations without the approval of the plans for construction by the Pennsylvania Department of Transportation. And, counties may not allocate money from the special fund to political subdivisions within the county until the application and the contracts or plans for the proposed expenditures have been made on a form prescribed by the Pennsylvania Department of Transportation.
- (4) Counties may encumber current funds for future road and bridge construction, reconstruction, and maintenance projects including viable municipal projects. Counties must redistribute any unencumbered balance in the special fund to political subdivisions if the unencumbered balance is more than the county's receipts during the preceding twelve month period.
- (5) Counties must submit a report to the Pennsylvania Department of Transportation by January 31 for the period ending December 31 on prescribed Form MS-991, The Report of County Liquid Fuels Tax Fund, showing the receipts and expenditures of the money received by the county from the Commonwealth. Upon failure to file the report or instances of any non-compliant payments, allocations, or expenditures, the Pennsylvania Department of Transportation may withhold further funding until the delinquent report is filed, the money is allocated, or the expenditures for the prior 12 months are approved.
- B. *The Vehicle Code*, as amended by Act 44 of 2007 (July 18, 2007, P.L. 169), prescribes the Pennsylvania Department of Transportation with oversight authority of the Act 44 funds distributed to the counties from the Pennsylvania Turnpike Commission's annual contribution of \$5,000,000 to the Commonwealth's Motor License Fund. The County's Act 44 Tax Fund is used to account for the distribution made to the county from the Department of Transportation and the payments made for construction and maintenance of county-owned bridges.

1. Criteria (Continued)

- (3) For bridge maintenance/preservation activities, the county must confer with a District Municipal Services Representative to determine if Department of Transportation approval is required. All rehabilitations, replacements or any other work that affects the carrying capacity of the structure or the waterway areas requires the approval of the Department of Transportation.
- (4) In order to receive Act 44 funds as scheduled, each county must submit an annual report showing the receipts and expenditures for the preceding 12 months. The use of the funds must be in compliance with the Act. Failure to do so may result in the county's not receiving allocations until such deficiencies are resolved.

C. *The Vehicle Code*, as amended by Act 89 of 2013 (November 25, 2013, P.L. 169), prescribes the Pennsylvania Department of Transportation with oversight authority of the Act 89 funds distributed to the counties from the Department of Transportation. The County's Act 89 Tax Fund is used to account for the distribution made to the county from the Department of Transportation and the payments made for construction and maintenance of county-owned bridges.

- (1) Funds received by the counties must be deposited in a special fund designated as the County Act 89 Fund and no other money may be deposited and commingled. 1. Criteria (Continued)

- Engineering fees related to bridge work (fees in excess of 10% of the total contract price must be documented and justified to the satisfaction of the District Municipal Services Office).
 - Liability insurance for bridge equipment and vehicles when the named beneficiary is the entity's Act 89 Fund.
 - Inspection costs associated with bridges.
 - Purchase of right-of-way for bridge construction, reconstruction, or maintenance.
- (3) For bridge maintenance/preservation activities, the county must confer with a District Municipal Services Representative to determine if Department of Transportation approval is required. All rehabilitations, replacements or any other work that affects the carrying capacity of the structure or the waterway areas requires the approval of the Department of Transportation.
- (4) In order to receive Act 89 funds as scheduled, each county must submit an annual report showing the receipts and expenditures for the preceding 12 months. The use of the funds must be in compliance with the Act. Failure to do so may result in the county's not receiving allocations until such deficiencies are resolved.

Basis Of Presentation

In accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation, the Report of County Liquid Fuels Tax Fund With Adjustments and the Reports of Act 44 and Act 89 Tax Funds With Adjustments do not constitute complete financial presentations of the county's assets, liabilities, expenses, and fund balance but include the receipts, expenditures, and fund balances of the County Liquid Fuels Tax Fund and the County Act 44 and Act 89 Tax Funds, respectively.

- E. The balance in the fund at the close of the report calendar year.

2. Deposits

The County Code, Title 16 P.S § 17067, authorizes the county to deposit its funds in the following:

- Deposits in savings accounts or time deposits, other than certificates of deposit or share accounts, of institutions having their principal place of business in the Commonwealth of Pennsylvania and insured by the Federal Deposit Insurance Corporation (FDIC) or other like insurance. For any amount above the insured maximum, the depository shall pledge approved collateral.
- Certificates of deposit purchased from institutions insured by the FDIC or other like insurance to the extent that such accounts are so insured. For any amounts in excess of the insured maximum, such deposits shall be collateralized by a pledge or assignment of assets. Certificates of deposit may not exceed 20 percent of a bank's total capital surplus or 20 percent of a savings and loan or savings bank's assets minus liabilities.

Deposits consist of receipts and deposits in financial institutions. Pennsylvania statutes require all deposits to be insured and, for any amount above the insured maximum, to be secured with approved collateral as defined.

2. Deposits (Continued)

There were no deposits exposed to custodial credit risk as of December 31, 2016. Custodial credit risk, as defined by GASB No. 40, as amended, includes deposits that are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the county's name.

Fund Balance

The fund balance for the Liquid Fuels Tax Fund as of December 31, 2016 consists of the following:

Cash	<u>\$994,152.70</u>
------	---------------------

The fund balance for the Act 44 Tax Fund as of December 31, 2016 consists of the following:

Cash	<u>\$551,159.76</u>
------	---------------------

The fund balance for the Act 89 Tax Fund as of December 31, 2016 consists of the following:

Cash	<u>\$489,244.28</u>
------	---------------------

3. Interest Earnings

Our examination disclosed that the county deposited idle liquid fuels tax money in interest-bearing accounts which earned \$.65 during 2015 and \$4.49 during 2016, thus providing additional funds for road maintenance and repairs.

Additionally, the county deposited idle Act 89 tax money in an interest-bearing account which earned \$515.62 during 2015 and \$1,559.29 during 2016, thus providing additional funds for bridge maintenance and repairs.

FINDINGS AND RECOMMENDATIONS
FOR THE PERIOD
JANUARY 1, 2015 TO DECEMBER 31, 2016

Finding No. 1 - Act 44 And Act 89 Allocations Deposited Into The Liquid Fuels Tax Fund

Our examination disclosed that on January 14, 2016 and December 6, 2016, the county deposited its Act 44 allocations of \$220,340.13 and \$215,868.75, respectively, into its Liquid Fuels Tax Fund. Additionally, on June 7, 2016 and December 6, 2016, the county deposited its Act 89 allocations of \$191,404.85 and \$188,906.74, respectively, into its Liquid Fuels Tax Fund, which is in noncompliance with the Department of Transportation's *Publication 9*.

The Department of Transportation's *Publication 9*, Chapter 4, Section 4.5, states:

Each county must deposit the Act 44 funds it receives into a special fund called the County Act 44 Fund, which may be used only for the purposes permitted in the Act [Act 44 of 2007]. . . . (Note Act 44 and Act 89 Funds may be deposited in a single account. However, the county must account for these funds independently for auditing.)

Furthermore, the Department of Transportation's *Publication 9*, Chapter 6, Section 6.5, states:

Each county must deposit the Act 44 and Act 89 funds it receives into a special fund called the County Act 44 Fund and County Act 89 Fund, which may be used only for those purposes permitted by the Act [Act 89 of 2013] (Note Act 44 and Act 89 Funds may be deposited in a single account. However, the county must account for these funds independently for auditing.)

When Act 44 and Act 89 Tax Fund money is commingled with the Liquid Fuels Tax Fund or other funds, the potential for Act 44 and Act 89 Tax Fund money to be used for unauthorized purposes increases significantly.

Recommendations

We recommend that the county reimburse \$436,208.88 into its Act 44 Tax Fund and \$380,311.59 to its Act 89 Tax Fund upon official notification by the Department of Transportation.

We further recommend that, in the future, the county deposit all Act 44 and Act 89 money promptly into the Act 44 Tax Fund and Act 89 Tax Fund, respectively.

Finding No. 2 - Idle Funds Held In A Noninterest-Bearing Account - Recurring

We cited the county for maintaining idle funds in a noninterest-bearing account in our prior four reports with the most recent being January 1, 2014 to December 31, 2014. Our current examination disclosed that liquid fuels tax money and Act 44 tax money in excess of current needs was deposited in a noninterest-bearing checking account from January 1, 2015 to December 31, 2016 with an average balance of \$600,000.00 in the Liquid Fuels Tax Fund and \$550,000.00 in the Act 44 Tax Fund.

The Department of Transportation's *Publication 9*, Chapter One, Section 1.6.1, states:

Monies in the County Liquid Fuels Tax Fund should be invested to earn interest until expended. . .

Additionally, the Department of Transportation's *Publication 9*, Chapter Four, Section 4.6.1, states:

Monies in the County Act 44 Fund should be invested to earn interest until expended. . .

The County Code, Section 1706, as published by the Local Government Commission, lists the types of permissible investments for county funds. If the county had invested the liquid fuels tax funds in interest-bearing accounts, certificates of deposit, or other investments permitted by *The County Code*, additional money would have been earned for road maintenance and repairs.

This condition occurred because the county failed to comply with our prior examination recommendation to deposit Liquid Fuels Tax Fund and Act 44 Fund monies into an interest-bearing account.

Recommendation

We again recommend that the county officials comply with the Department of Transportation's *Publication 9* by reassessing their fiscal policy and consider investing money in excess of current needs in investments outlined in *The County Code* as published by the Local Government Commission.

Management's Response

The county's First Deputy Controller stated:

The County of Montgomery recognizes that these funds should if possible be in interest bearing accounts. Subsequent to the audit time period and prior to this audit the county moved funds into interest bearing accounts.

Auditor's Conclusion

During the next examination, we will determine if the county complied with our recommendation.

SUMMARY OF PRIOR EXAMINATION RECOMMENDATIONS
FOR THE PERIOD
JANUARY 1, 2015 TO DECEMBER 31, 2016

Summary Of Prior Examination Recommendations

In our prior report we recommended that the Department of Transportation review our examination finding to determine if the county should reimburse \$261,820.00 to its Liquid Fuels Tax Fund for failure to timely submit final completion report.

During our current examination we reviewed a letter dated January 5, 2017, from the Department of Transportation informing the county that the reimbursement of \$261,820.00 would not be required.

We also recommend that the county:

- Complies with the Department of Transportation's *Publication 9* by submitting a Final Completion Report Form MS-999 for completed projects in a timely manner.
- Complies with the Department of Transportation's *Publication 9* by reassessing their fiscal policy and consider investing money in excess of current needs in investments outlined in *The County Code* as published by the Local Government Commission.

During our current examination we noted that the county complied with our first bulleted recommendation but did not comply with our second bulleted recommendation (see Finding No. 2).
