TIMOTHY L. DEFOOR AUDITOR GENERAL

Independent Auditor's Report

The Honorable Yassmin Gramian, P.E. Secretary
Department of Transportation
Harrisburg, PA 17120

We were engaged to examine the accompanying Forms MS-965 With Adjustments for the Liquid Fuels Tax Fund of the Township of New Milford, Susquehanna County, for the period January 1, 2018 to December 31, 2020, which were required to be prepared in accordance with the information required by the Pennsylvania Department of Transportation and the criteria described in the Background section of this report and the Department of Transportation's Publication 9. The municipality's management is responsible for presenting the Forms MS-965 in accordance with the criteria described in the Background section of this report and the Department of Transportation's Publication 9. Our responsibility is to express an opinion on the Forms MS-965 With Adjustments based on conducting the examination in accordance with attestation standards established by the AICPA and *Government Auditing Standards* issued by the Comptroller General of the United States.

We are required to be independent and to meet our ethical responsibilities in accordance with relevant ethical requirements relating to the examination.

As described in the Auditor Description of Select Transactions section of this report, the adjustments included on the Forms MS-965 With Adjustments are made by the Department of the Auditor General.

The attestation standards require that we request written representations from management to confirm certain matters and to support other audit evidence. Accordingly, we repeatedly called, emailed, and mailed management requesting management representations, with the last request made via certified mail that was signed for by the township on September 14, 2022. However, we never received a management representation letter. Management failed to provide written representations and did not respond to our requests to approve our proposed adjustments. Management previously agreed to provide representations and approve proposed adjustments in the engagement letter, and the failure to do so resulted in limitations on the scope of our examination.

<u>Independent Auditor's Report (Continued)</u>

Because of the limitations on the scope of our examination discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on whether the Forms MS-965 With Adjustments is in accordance with the information required by the Pennsylvania Department of Transportation for the Liquid Fuels Tax Fund of the Township of New Milford, Susquehanna County, for the period January 1, 2018 to December 31, 2020, in accordance with the criteria described in the Background section of this report and the Department of Transportation's *Publication 9*.

In accordance with *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the Forms MS-965; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the Forms MS-965. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions. We performed our examination to express an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and not for the purpose of expressing an opinion on internal control over reporting on the Forms MS-965 or on compliance and other matters; accordingly, we express no such opinions.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Forms MS-965 will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over reporting on the Forms MS-965 was for the limited purpose of expressing an opinion on whether the Forms MS-965 are presented in accordance with the criteria described above and would not necessarily identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our engagement we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

<u>Independent Auditor's Report (Continued)</u>

In connection with our engagement, we performed tests of Township of New Milford, Susquehanna County's compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of amounts on the Forms MS-965. The results of our tests disclosed the instances of noncompliance listed below that are required to be reported under *Government Auditing Standards*. Additionally, if the scope of our work had been sufficient to enable us to express an opinion on the Forms MS-965, additional instances of noncompliance or other matters may have been identified and reported herein.

- Over Expended Equipment Purchase Tally.
- Nonpermissible Expenditures.

We also noted a matter that, while not required to be included in this report by *Government Auditing Standards*, has been included in the finding below:

• Late Receipt Of Allocation - Recurring.

Timothy L. Detool

This report is intended solely for the information and use of the Department of Transportation and the Township of New Milford, Susquehanna County, and is not intended to be and should not be used by anyone other than the specified parties.

If you have any questions, please feel free to contact the Bureau of County Audits at 717-787-1363.

Timothy L. DeFoor

Auditor General

Background

The Liquid Fuels Tax Municipal Allocation Law, Act 655 of 1956, as amended, see also 72 P.S. § 2615.5, et sec., provides municipalities other than counties (i.e., townships, boroughs, cities, towns, home rule, and optional plan governments) with an annual allocation of liquid fuels taxes from the state's Motor License Fund to be used for the maintenance and repair of streets, roads, and bridges for which the municipality is responsible. The allocation of these funds to municipalities is based upon: (1) 50 percent on the municipality's proportion of local road mileage to the total local road mileage in the state; and (2) 50 percent on the proportion of a municipality's population to the total population in the state.

Title 75 Pa.C.S. § 9511 of the Pennsylvania Vehicle Code provides municipalities with annual maintenance payments to be received from the Motor License Fund for functionally local highways that were transferred to a municipality from the Commonwealth of Pennsylvania.

Each municipality must deposit the allocation of Liquid Fuels Tax funds and annual maintenance payments that it receives into a special fund called either the Municipal Liquid Fuels Tax Fund or State Fund. A municipality may not deposit any other monies into this fund except when the municipality does not have enough money in the special fund to meet the payments called for by its current annual budget for road and bridge purposes. In such a case, the municipality may borrow money or transfer money from its General Fund to its Liquid Fuels Tax Fund.

The Department of Transportation has been given the regulatory authority for the administration of these funds. Department of Transportation's *Publication 9* includes the policies and procedures for the administration of Act 655, as amended, and the Liquid Fuels Tax Fund money. However, if there is a difference between *Publication 9* and any legislation, the legislation shall govern.

To qualify for the annual allocation of Liquid Fuels Tax funds, *Publication 9* indicates that each municipality shall:

- 1. Submit annual reports (MS-965, Actual Use Report, MS-965P, Project and Miscellaneous Receipts, and MS-965S, Record of Checks).
- 2. Make deposits and payments or expenditures in compliance with Act 655 of 1956, as amended. Failure to do so may result in not receiving allocations from PennDOT until all discrepancies are resolved. *Publication 9*, Section 2.6, includes information about investing Liquid Fuels Tax monies, using loan or bond proceeds, and types of receipts into the Liquid Fuels Tax Fund.

Background (Continued)

- 3. Submit the Pennsylvania Department of Community and Economic Development's (DCED) Report of Elected and Appointed Officials by January 31st and the Survey of Financial Condition By March 15th.
- 4. Ensure resolution of all Contractor Responsibility Program (CRP) holds and blocks imposed by the Department of Revenue and the Department of Labor and Industry.
- 5. Ensure resolution of all reimbursements required as a result of audits performed by the Department of the Auditor General or monitoring reviews performed by the Department of Transportation's Financial Consultants.

Criteria

The criteria for the Form MS-965 With Adjustment are described below.

Section 1 of Form MS-965 With Adjustments provides a summary of Liquid Fuels Tax Fund expenditures by category. Categories requiring explanation include:

• Major equipment purchases are purchases of road machinery and road equipment with varying yearly costs in excess of the amounts indicated below:

2017	2018	2019	2020
\$10,700.00	\$10,900.00	\$11,100.00	\$11,300.00

• Minor equipment purchases are purchases of road machinery and road equipment with varying yearly costs that are less than or equal to the amounts indicated below:

 2017	2018	2019	2020
\$10,700.00	\$10,900.00	\$11,100.00	\$11,300.00

• Agility projects are exchanges of services with the Department of Transportation.

Background (Continued)

Section 2 of Form MS-965 With Adjustments provides information on the fund balance. Categories requiring explanation include:

- The state allocation is available from the Department of Transportation in March of each year. The amount the municipality receives is based half on its population and half on its road mileage.
- Municipalities that transferred roads from the Commonwealth of Pennsylvania to the municipality through the Highway Transfer Program receive annual turnback allocations in March of each year from the Department of Transportation. Turnback allocations are based on the mileage of the roads transferred.
- Expenditures include the total transferred from Section 1.

Section 3 of Form MS-965 With Adjustments determines if the municipality expended Liquid Fuels Tax Fund money in excess of the permissible amount for equipment and the balance that the municipality may carry forward for the purchase of equipment to the subsequent year.

Department of Transportation *Publication 9* requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year and 20 percent of the current year's Liquid Fuels Tax Fund allocation and, if applicable, 20 percent of the turnback allocation plus other Department of Transportation approved adjustments.

If the municipality spent in excess of the amount listed on Line 4, the excess must be reimbursed to the Liquid Fuels Tax Fund.

The equipment balance to be carried forward for the subsequent year is the lesser of the amount on Line 6 or the ending fund balance on Line 6 of Section 2, but not less than zero.

Background (Continued)

Basis of Presentation

The financial activities of the municipality are accounted for in separate funds. The Liquid Fuels Tax Fund is used to account for state aid revenues from the Pennsylvania Department of Transportation used primarily for building and improving local roads and bridges. The Form MS-965 has been prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation as a result of the Fuels Tax Act 655, dated 1956 and as amended, which does not constitute a complete presentation of the entity's assets, liabilities, expenses, and fund balance. Accordingly, the presentation of Form MS-965 With Adjustments is restricted to the Liquid Fuels Tax Fund, which represents a segment of the entity.

Basis Of Accounting

The accompanying Forms MS-965 With Adjustments is required to be prepared in accordance with reporting requirements prescribed by the Pennsylvania Department of Transportation. Under this method, revenues are recognized when received and expenditures are recorded when paid.

General Fixed Assets

General fixed assets are required to be recognized as expenditures at the time of purchase. No depreciation has been provided on the heavy equipment used to maintain and repair roads and bridges.

TOWNSHIP OF NEW MILFORD SUSQUEHANNA COUNTY LIQUID FUELS TAX FUND AUDITOR DESCRIPTION OF SELECT TRANSACTIONS FOR THE PERIOD JANUARY 1, 2018 TO DECEMBER 31, 2020

The following information relates to certain types of transactions for which the Pennsylvania Department of Transportation requested that we provide additional detail:

Adjustments

2020 - Section 3

An adjustment of \$74,462.33 was proposed to "Prior year equipment balance" because an incorrect equipment balance was carried forward.

Miscellaneous Receipts

The following miscellaneous receipts were deposited into the Liquid Fuels Tax Fund during the examination period:

Source	Description	2018	2019	2020
General Fund	Reimbursement (Summary of Prior Examination Recommendation)	\$24,320.00	\$ -	\$ -
General Fund	Transfer to cover expenditures		230,000.00	200,000.00
Totals		\$24,320.00	\$230,000.00	\$200,000.00

Miscellaneous Expenditures

The following miscellaneous expenditures were paid from the Liquid Fuels Tax Fund during the examination period:

Payee	Description	2019	2020
Financial institution General Fund	Bank service fees Repayment of transfers	\$30.00	\$ 30.74
	for expenditures		430,000.00
Totals		\$30.00	\$430,030.74

Finding No. 1 - Over Expended Equipment Purchase Tally

Our examination disclosed that the municipality expended \$127,696.42 in excess of the amount available for the purchase of equipment for the 2019 and 2020 years, as follows:

<u>2019</u>		Actual	Totals
1.	Prior year equipment balance	\$7,023.67	
2.	Current year equipment allocation (20% of Lines 2 + 2A, Section 2)	5,824.00	
3.	PENNDOT approved adjustments		
4.	Total funds available for equipment acquisition	12,847.67	
5.	Less: Major equipment purchases	87,310.00	
6.	Amount Over Expended for equipment – 2019		\$(74,462.33)
<u>2020</u>			
1.	Prior year equipment balance	-	
2.	Current year equipment allocation (20% of Lines 2 + 2A, Section 2)	98,504.91	
3.	PENNDOT approved adjustments	-	
4.	Total funds available for equipment acquisition	98,504.91	
5.	Less: Major equipment purchases	151,739.00	
6.	Amount Over Expended for equipment – 2020		(53,234.09)
Two Year Total			\$(127,696.42)

The Department of Transportation's, *Publication 9*, Appendix D, Section 449.11, requires that the amount expended for equipment purchases in a given year not exceed the sum of the equipment balance carried forward from the previous year, 20 percent of the current year's Liquid Fuels Tax Fund allocations, and any approved adjustments.

The municipality's management did not provide a reason why the municipality over-expended its equipment purchase tally.

Finding No. 1 - Over Expended Equipment Purchase Tally (Continued)

The failure to follow *Publication 9* could result in the municipality having to reimburse \$127,696.42 to its Liquid Fuels Tax Fund.

Recommendations

We recommend that the municipality reimburse \$127,696.42 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We further recommend that the municipality only expend up to the approved amount on equipment expenditures in accordance with the Department of Transportation's *Publication 9*.

Management's Response

The municipal officials offered no formal response at this time.

Auditor's Conclusion

During our next examination, we will determine if the municipality complied with our recommendations.

Finding No. 2 - Nonpermissible Expenditures

Our examination disclosed that the municipality expended \$15,253.28 during 2018 from the Liquid Fuels Tax Fund for stream repair and restoration near various township roads, which are nonpermissible expenditures. These expenditures are as follows:

Invoice <u>Number</u>	Invoice <u>Date</u>	Check <u>Number</u>	Check <u>Date</u>	Amount
None None	10/08/2018 12/10/2018	5217 5549	10/17/2018 12/20/2018	\$ 3,574.85 6,552.00
None Total	12/10/2018	5550	12/20/2018 _	5,126.43 \$15,253.28
1 Otal				\$13,433.48

The Liquid Fuels Tax Municipal Allocation Law, 72 P.S. § 2615.4, provides, in part, that monies herein allocated may be used only for construction, reconstruction, maintenance, and repairs of such public roads or streets, including bridges, culverts and drainage structures for which they are legally responsible. Also permitted are expenditures involving acquisition, maintenance, repairs and operation of street signs, traffic signs, traffic signal control systems, road equipment, and snow fences.

The Department of Transportation has been statutorily authorized to promulgate regulations concerning the administration of Liquid Fuels Tax Fund money and has determined that certain items, including stream work, are outside the scope of permissible expenditures.

This condition occurred because management was not aware that these expenditures were nonpermissible.

The failure to follow the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations as noted above could result in the municipality having to reimburse \$15,253.28 to its Liquid Fuels Tax Fund.

Finding No. 2 - Nonpermissible Expenditures (Continued)

Recommendations

We recommend that the municipality reimburse \$15,253.28 to its Liquid Fuels Tax Fund upon official notification by the Department of Transportation.

We further recommend that, in the future, the municipality complies with the Liquid Fuels Tax Municipal Allocation Law and the Department of Transportation's Regulations regarding permissible expenditures.

Management's Response

The municipal officials offered no formal response at this time.

Auditor's Conclusion

During our next examination, we will determine if the municipality complied with our recommendations.

Finding No. 3 - Late Receipt Of Allocations - Recurring

Our examination disclosed that the 2018 Liquid Fuels Tax Fund allocation of \$229,525.48, the 2019 Liquid Fuels Tax Fund allocation of \$234,874.11, and the 2018 Liquid Fuels Tax Fund turnback allocation of \$29,120.00, all of which should have been distributed from the Department of Transportation to the municipality during the first week of March of each year, were not received until December 19, 2018, January 15, 2020 and December 24, 2018, respectively, because the municipality failed to comply with the Department of Transportation's *Publication 9*, Chapter Two, Section 2.4, which states:

To qualify for the annual liquid fuels tax allocation, a municipality shall:

- Submit annual reports (MS-965, Actual Use Report, MS-965P, Project and Miscellaneous Receipts, and MS-965S, Record of Checks).
- Make deposits and payments or expenditures in compliance with the Act 655. Failure to do so may result in not receiving allocations from PENNDOT until all discrepancies are resolved.
- Submit the Pennsylvania Department of Community and Economic Development's (DCED) Report of Elected and Appointed Officials by January 31st and the Survey of Financial Condition by March 15th.
- Ensure resolution of all Contractor Responsibility Program (CRP) holds and blocks imposed by the Department of Revenue and the Department of Labor and Industry.
- Ensure resolution of all reimbursements required as a result of audits performed by the Department of the Auditor General or monitoring reviews performed by the Department of Transportation's Financial Consultants.

Finding No. 3 - Late Receipt Of Allocations - Recurring (Continued)

Because the municipality failed to file documents and information timely as noted above, the municipality did not have use of the 2018 allocation for more than nine months, the 2019 allocation for more than ten months, and the 2018 turnback allocation for more than nine months. Furthermore, had the allocations been received timely, money may have been available for investment purposes, potentially earning interest income which could have been used for road maintenance and repairs.

A similar finding was also written in our prior report. Our examination further noted that the municipality received its 2020 Liquid Fuels Tax Fund and Turnback allocations timely.

Recommendation

We recommend that, in the future, the municipality continues to comply with the Department of Transportation's *Publication 9* to ensure that the allocations are received during the first week in March as outlined above.

Management's Response

The municipal officials offered no formal response at this time.

Auditor's Conclusion

During our next examination, we will determine if the municipality complied with our recommendation.

Summary Of Prior Examination Recommendations

In our prior report, we recommended that the Department of Transportation review our examination finding to determine if the municipality should reimburse \$24,320.00 to its Liquid Fuels Tax Fund for noncompliance with advertising and bidding requirements.

During our current examination, we reviewed a letter dated September 5, 2018, from the Department of Transportation directing the municipality to reimburse \$24,320.00 to its Liquid Fuels Tax Fund. We noted that the municipality reimbursed this amount to its Liquid Fuels Tax Fund on September 20, 2018.

In our prior report, we also recommended that the municipality comply with *The Second Class Township Code* by advertising for bids for all purchases over \$19,400.00. The threshold for advertising for bids increased to purchases over \$20,100.00 for 2018, \$20,600.00 for 2019, \$21,000.00 for 2020, \$21,300.00 for 2021, and \$21,900 for 2022.

During our current examination, we noted that the municipality complied with our recommendations.
