Background.....	1
Letter from the Auditor General	3
Status of Prior Finding	5
Supplementary Information	7
Report Distribution List	11

BACKGROUND

On December 18, 1984, the Pennsylvania Legislature adopted the Municipal Pension Plan Funding Standard and Recovery Act (P.L. 1005, No. 205, as amended, 53 P.S. § 895.101 et seq.). The act established mandatory actuarial reporting and funding requirements and a uniform basis for the distribution of state aid to Pennsylvania's public pension plans. Section 402(j) of Act 205 specifically requires the Auditor General, as deemed necessary, to make an audit of every municipality which receives general municipal pension system State aid and of every municipal pension plan and fund in which general municipal pension system State aid is deposited.

Pension plan aid is provided from a 2 percent foreign casualty insurance premium tax, a portion of the foreign fire insurance tax designated for paid firefighters and any investment income earned on the collection of these taxes. Generally, municipal pension plans established prior to December 18, 1984, are eligible for state aid. For municipal pension plans established after that date, the sponsoring municipality must fund the plan for three plan years before it becomes eligible for state aid. In accordance with Act 205, a municipality's annual state aid allocation cannot exceed its actual pension costs.

In addition to Act 205, the City of Warren Firefighters Pension Plan is also governed by implementing regulations adopted by the Public Employee Retirement Commission published at Title 16, Part IV of the Pennsylvania Code and applicable provisions of various other state statutes including, but not limited to, the following:

Act 177 - General Local Government Code, Act of December 19, 1996 (P.L. 1178, No. 177), as amended, 53 Pa.C.S. § 101 et seq.

Act 317 - The Third Class City Code, Act of June 23, 1931 (P.L. 932, No. 317), as amended, 53 P.S. § 35101 et seq.

The City of Warren Firefighters Pension Plan is a single-employer defined benefit pension plan locally controlled prior to January 1, 2010, by the provisions of Ordinance No. 1668, as amended. On December 21, 2009, the city restated the firefighters pension plan through the adoption of Ordinance No. 1782, with an effective date of January 1, 2010. The plan is also affected by the provisions of collective bargaining agreements between the city and its firefighters.

The Honorable Mayor and City Council
City of Warren
Warren County
Warren, PA 16365

We have conducted a compliance audit of the City of Warren Firefighters Pension Plan for the period January 1, 2008, to December 31, 2009. The audit was conducted pursuant to authority derived from Section 402(j) of Act 205 and in accordance with *Government Auditing Standards* applicable to performance audits issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our conclusions based on our audit objectives.

The objectives of the audit were:

1. To determine if municipal officials took appropriate corrective action to address the finding contained in our prior audit report; and
2. To determine if the pension plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies.

Our audit was limited to the areas related to the objectives identified above. The City of Warren contracted with an independent certified public accounting firm for annual audits of its basic financial statements which are available at the city's offices. Those financial statements were not audited by us and, accordingly, we express no opinion or other form of assurance on them.

City officials are responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the City of Warren Firefighters Pension Plan is administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies. In conducting our audit, we obtained an understanding of the city's internal controls as they relate to the city's compliance with those requirements and that we considered to be significant within the context of our audit objectives, and assessed whether those significant controls were properly designed and implemented. Additionally, we tested transactions, assessed official actions, performed analytical procedures and interviewed selected officials to the extent necessary to satisfy the audit objectives.

The results of our tests indicated that, in all significant respects, the City of Warren Firefighters Pension Plan was administered in compliance with applicable state laws, regulations, contracts, administrative procedures, and local ordinances and policies.

The accompanying supplementary information is presented for purposes of additional analysis. We did not audit the information and, accordingly, express no form of assurance on it. However, we are concerned about the historical trend information contained in the schedule of funding progress included in this report which indicates a continued decline of assets available to satisfy the long-term liabilities of the plan. For example, the plan's funded ratio went from 79.4% as of January 1, 2005, to a ratio of 67.7% as of January 1, 2009, which is the most recent date available. We encourage city officials to monitor the funding of the firefighters pension plan to ensure its long-term financial stability.

The contents of this report were discussed with officials of the City of Warren and, where appropriate, their responses have been included in the report.

March 8, 2011

JACK WAGNER
Auditor General

CITY OF WARREN FIREFIGHTERS PENSION PLAN
STATUS OF PRIOR FINDING

Partial Compliance With Prior Audit Recommendation

The City of Warren has partially complied with the prior audit recommendation concerning the following:

· Pension Plan Governing Document Not In Compliance With The Third Class City Code

On December 21, 2009, the city adopted Ordinance No. 1782, which restated the firefighters pension plan. Through this ordinance, with an effective date of January 1, 2010, changes were made to the following provisions which are now in compliance with the Third Class City Code: Normal Retirement Benefit; Service Requirement for Vesting; Return of Employee Contributions; and the elimination of the Early Retirement benefit.

The city adopted a home rule charter pursuant to the Home Rule Charter and Optional Plans Law, 53 Pa. C.S. § 2901 et seq. (previously 53 P.S. § 1-101 et seq.). The 5 prior audits for the city's firefighters pension plan covering the years 1997 through 2007, disclosed that the firefighters pension plan's governing document includes provisions which are not in compliance with the Third Class City Code. It was noted in the prior audit reports that certain provisions are in excess of Third Class City Code requirements, and certain provisions provide for lesser benefits than mandated by the Third Class City Code. The prior audit report for the period January 1, 2006, to December 31, 2007, recommended that the city restrict pension benefits to those authorized by the Third Class City Code for all employees who began full-time employment on or after January 24, 2001 (the date *Municipality of Monroeville v. Monroeville Police Department Wage Policy Committee* was issued) upon the renewal, extension, or renegotiation of the collective bargaining agreement. To the extent that the city is not in compliance with the Third Class City Code and/or is contractually obligated to provide benefits in excess of those authorized by the Third Class City Code to employees who began employment on or after January 24, 2001, the excess benefits must be reflected in the Act 205 actuarial valuation reports for the plan and funded in accordance with Act 205 funding standards. Furthermore, to the extent that the city has failed to provide benefits which are mandated by the Third Class City Code, it was recommended that the city increase those benefits to the levels prescribed by the code at its earliest opportunity to do so.

CITY OF WARREN FIREFIGHTERS PENSION PLAN
STATUS OF PRIOR FINDING

Partial Compliance With Prior Audit Recommendation – (Continued)

The City of Warren has maintained that pension benefits are subject to collective bargaining and interest arbitration processes. In addition, the city has argued that these matters have been the subject of litigation, which included an appeal and Memorandum Opinion issued by the Commonwealth Court. In particular, certain retired firefighters and the International Association of Firefighters appealed the fact that retired firefighters were receiving benefits below the levels established by the Third Class City Code. In concluding that the pension benefits below those required by the Third Class City Code were not void as against public policy, the Court concluded that the retirees and the Union, “through collective bargaining, bargained away their pension rights.” This is particularly true, according to the Court when the parties, as here, negotiated the issue of compliance with the Third Class City Code and, ultimately agreed to lesser benefits which cost less than if the plan were entirely Third Class City Code compliant. Furthermore, the City of Warren had an actuarial cost study done of its plan provisions and the cost to bring them into compliance with the Third Class City Code. That cost study revealed that for the police and firefighter plans it would be more expensive to comply with the Third Class City Code (and the Department’s recommendations) than it would to leave the benefits unchanged.

During the current audit period, the city negotiated a new collective bargaining agreement with its firefighters covering the period January 1, 2010, to December 31, 2014, and there continue to be provisions in the plan’s governing document that remain not in compliance with the Third Class City Code, as noted in the prior audit reports.

The Department recognizes the city is unable to make any unilateral changes to its pension plans due to collective bargaining agreements previously negotiated. In addition, the Department also recognizes that all of the benefit provisions that deviate from the Third Class City Code do not result in increased pension costs and to the extent that the city has provided pension benefits which are less than those mandated by the Third Class Code it has consequently resulted in lower annual pension costs for the city. However, it remains the Department’s position that the city restrict pension benefits to those authorized by the Third Class City Code for all employees who began full-time employment on or after January 24, 2001 (the date *Monroeville* was issued) upon the renewal, extension, or renegotiation of the collective bargaining agreement and to the extent that the city has failed to provide benefits which are mandated by the Third Class City Code, we again recommend that the city increase those benefits to the levels prescribed by the code at its earliest opportunity to do so. We will continue to monitor the city’s compliance with the prior audit recommendations and the effect of providing pension benefits not in compliance with the Third Class City Code on the city’s state aid allocations during future audits of the plan.

CITY OF WARREN FIREFIGHTERS PENSION PLAN
 SUPPLEMENTARY INFORMATION
 (UNAUDITED)

SCHEDULE OF FUNDING PROGRESS

Historical trend information about the plan is presented herewith as supplementary information. It is intended to help users assess the plan's funding status on a going-concern basis, assess progress made in accumulating assets to pay benefits when due, and make comparisons with other state and local government retirement systems.

The actuarial information is required by Act 205 biennially, except for distressed pension plans, for which annual reporting was required through January 1, 2003. The historical information, beginning as of January 1, 2005, is as follows:

	(1)	(2)	(3)	(4)	(5)	(6)
Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)	Unfunded (Assets in Excess of) Actuarial Accrued Liability (b) - (a)	Funded Ratio (a)/(b)	Covered Payroll (c)	Unfunded (Assets in Excess of) Actuarial Accrued Liability as a % of Payroll [(b-a)/(c)]
01-01-05	\$ 788,275	\$ 992,766	\$ 204,491	79.4%	\$ 525,726	38.9%
01-01-07	1,000,463	1,261,852	261,389	79.3%	682,214	38.3%
01-01-09	812,665	1,200,322	387,657	67.7%	702,840	55.2%

CITY OF WARREN FIREFIGHTERS PENSION PLAN
SUPPLEMENTARY INFORMATION
(UNAUDITED)

The comparability of trend information is affected by changes in actuarial assumptions, benefit provisions, actuarial funding methods, accounting policies, and other changes. Those changes usually affect trends in contribution requirements and in ratios that use the actuarial accrued liability as a factor.

Analysis of the dollar amount of the actuarial value of assets, actuarial accrued liability, and unfunded (assets in excess of) actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability (Column 4) provides one indication of the plan's funding status on a going-concern basis. Analysis of this percentage, over time, indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan.

Trends in unfunded (assets in excess of) actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded (assets in excess of) actuarial accrued liability as a percentage of annual covered payroll (Column 6) approximately adjusts for the effects of inflation and aids analysis of the plan's progress made in accumulating sufficient assets to pay benefits when due. Generally, where there is an unfunded actuarial accrued liability, the smaller this percentage, the stronger the plan. However, when assets are in excess of the actuarial accrued liability, the higher the bracketed percentage, the stronger the plan.

SUPPLEMENTARY INFORMATION
(UNAUDITED)

SCHEDULE OF CONTRIBUTIONS FROM EMPLOYER
AND OTHER CONTRIBUTING ENTITIES

Year Ended December 31	Annual Required Contribution	Percentage Contributed
2004	\$ 49,824	106.8%
2005	50,474	108.8%
2006	69,798	105.8%
2007	74,909	100.5%
2008	79,850	102.3%
2009	75,251	106.2%

CITY OF WARREN FIREFIGHTERS PENSION PLAN
SUPPLEMENTARY INFORMATION
NOTES TO SUPPLEMENTARY SCHEDULES
(UNAUDITED)

The information presented in the required supplementary schedules was determined as part of the actuarial valuation at the date indicated. Additional information as of the latest actuarial valuation date follows:

Actuarial valuation date	January 1, 2009
Actuarial cost method	Entry age normal
Amortization method	Level dollar, closed
Remaining amortization period	10 years
Asset valuation method	Contract value
Actuarial assumptions:	
Investment rate of return	5.5%
Projected salary increases *	4.5%
* Includes inflation at	3.0%
Cost-of-living adjustments	None assumed

CITY OF WARREN FIREFIGHTERS PENSION PLAN
REPORT DISTRIBUTION LIST

This report was initially distributed to the following:

The Honorable Tom Corbett
Governor
Commonwealth of Pennsylvania

City of Warren Firefighters Pension Plan
Warren County
318 West Third Avenue
Warren, PA 16365

The Honorable Mark A. Phillips	Mayor
Mr. James C. Nelles	City Manager
Ms. Donna M. Risinger	Finance Supervisor
Mr. Sam Pascuzzi	Fire Chief
