## **Report of Independent Auditors on Compliance**

The Honorable Edward G. Rendell  
Governor  
Commonwealth Of Pennsylvania  
Harrisburg, Pennsylvania 17120

Dear Governor Rendell:

We have conducted a compliance audit of the Cameron County Assistance Office (CAO) pursuant to the authority of Title 55, Chapter 109 of the Pennsylvania Code. The audit period was March 1, 2006 through December 14, 2007. The objectives of our audit were:

- 1) To determine whether the CAO made proper eligibility determinations for recipients of Medicaid based on Department of Public Welfare (DPW) policies and procedures, while evaluating the CAO's implementation of the Medicaid Eligibility Determination Automation (MEDA) system; and
- 2) To determine whether the CAO obtained and properly recorded all third-party liability in the Client Information System.

When recipients are not eligible for Medicaid, the cost to Pennsylvania taxpayers of the resulting improper payments could be significant. For individuals in a managed care organization (MCO), a set monthly capitation fee is paid to the MCO even if the recipient did not receive services during the period of ineligibility. For individuals not in a MCO, the amount of improper payments depends on the types of services, such as prescriptions, hospitalization, dental services, and other medical services received by individuals during periods of ineligibility. It should be noted that payments made on behalf of ineligible recipients cannot be recouped by the Commonwealth from the MCO or from individual providers.

A burden of improper Medicaid payments to taxpayers also occurs when CAOs do not obtain and record sources of existing Third Party Liability (TPL) insurance into the system. Medicaid law states that Medicaid funds should not be paid for services covered by TPL insurance - in other words, Medicaid funds should only be paid as a last resort when other sources are not

Report of Independent Auditors on Compliance (Continued)

available. When CAOs do not obtain and record sources of existing TPL insurance into the system, DPW's Medicaid payment system is unaware of the TPL insurance and pays for services or pays capitation fees that should not be paid with Medicaid funds.

As a result of our review, we determined that no significant deficiencies exist that would warrant a finding or observation in this audit report.

During the March 10, 2008 exit conference, we reviewed the audit results with the Cameron CAO representatives. We have included the CAO and DPW comments, where applicable, in this report.

Sincerely,

JACK WAGNER  
Auditor General

April 24, 2008

**BACKGROUND INFORMATION**

## ***Background Information***

---

---

The Department of Public Welfare (DPW) is responsible for the administration of public assistance benefits to needy recipients in Pennsylvania. Benefits include cash assistance, food stamps and Medicaid. Cash assistance is grant money which falls into two categories: Temporary Assistance to Needy Families (TANF), a federally-funded program which provides money to families with dependent children who are needy because financial support is not available from one or both parents, and General Assistance (GA), a state-funded program which provides money primarily to single individuals and childless couples who do not have enough income to meet their basic needs and who do not qualify for TANF. The Food Stamp program is designed to offer assistance to low-income households in order to raise their level of nutrition. It is federally funded and operated jointly by the U.S. Department of Agriculture, Food and Nutrition Service, and DPW. Medicaid is the federal health care program for families and individuals with low income and resources. It is funded jointly by both the state and the federal government. DPW administers the program while the federal Centers for Medicare and Medicaid establishes requirements for service delivery, quality and eligibility standards.

Eligibility determinations are based on federal and state regulations specifying which individuals qualify for a program and the amounts for which they qualify. The Code of Federal Regulations (CFR) contains the applicable federal regulations. The Pennsylvania Code, which includes DPW's Cash Assistance Handbook, Medicaid Eligibility Handbook and Supplemental Handbook contain the applicable state regulations.

Once an applicant is determined eligible for benefits, relevant information about the recipient is recorded and maintained in DPW's Client Information System (CIS), where benefit information is maintained based on eligibility status and category of aid. The CAO performs a "renewal" or annual review, to determine continued eligibility for benefits.

CAO personnel utilize DPW's Income Eligibility Verification System (IEVS) to compare income and resource information with income and resource information obtained from outside sources. IEVS is updated quarterly with information from several sources including wage information from the Social Security Administration, and tax and unearned income information from the Internal Revenue Service. CAO caseworkers are to review this information at the time of application, when the recipient submits his or her semi-annual report (SAR) and at the annual renewal. Caseworkers receive an alert when they are required to review wage information received between the application date, the SAR and the renewal. However, IEVS only sends caseworkers an alert when there is

## ***Background Information***

---

wage information from a new or additional employer. IEVS does not provide caseworkers an alert when there is an increase in wages from ongoing employment even though the wage increase could affect a recipient's eligibility. Consequently, information that could affect a recipient's continued eligibility for Medicaid benefits is not reviewed until the recipient's SAR or annual review.

DPW recently implemented the Medicaid Eligibility Determination Automation (MEDA) system which was designed to automatically determine the level of Medicaid coverage based on demographic, resource and income information entered by the caseworker. Prior to this implementation, the caseworker made manual calculations to determine Medicaid eligibility.

**OBJECTIVES, SCOPE AND METHODOLOGY**

## ***Objectives, Scope And Methodology***

---

---

To achieve our audit objectives regarding eligibility we obtained a quarterly data file from the Department of Public Welfare of all recipients determined by the CAOs to be eligible for Medicaid benefits as of June 30, 2007. We selected a random sample of 105 cases from the 404 cases related to the Cameron CAO represented in the data file. Our audit period was March 1, 2006 to December 14, 2007, however in cases where we determined an ineligible individual was receiving Medicaid benefits, we expanded our test work through the last date of his or her ineligibility.

For each case selected in our sample, we tested certain aspects of eligibility and evaluated the CAO's examination and recording of third party liability to determine compliance with DPW regulations, governing laws, and administrative policies. We also tested cases that changed category when they were converted to MEDA to evaluate whether MEDA made the proper category determination.

The criteria we used to test cases in our sample included the Medicaid Eligibility Handbook, the Income Eligibility Verification System (IEVS) Manual, and the Client Information System Manual.

Due to the Internal Revenue Code paragraph 6103 regarding safeguarding of certain tax information, we are not authorized to have access to all information that contains wage and unearned income from the IRS. This scope limitation prevents us from confirming that all resources were included in calculating recipients' eligibility for benefits.

**AUDIT SUMMARY**

## ***Audit Summary***

---

---

During our field review, we examined 105 Medicaid case records to determine whether the CAO made proper eligibility determinations for recipients of Medicaid based on DPW policies and procedures, and whether the CAO obtained and properly recorded all third party liability on CIS. Also, we evaluated the CAO's implementation of the MEDA system.

As a result of our review, we determined that the deficiencies that exist would not warrant a finding or observation in this audit report.
