## **Report of Independent Auditors**

The Honorable Tom Corbett  
Governor  
Commonwealth of Pennsylvania  
Harrisburg, Pennsylvania 17120

Dear Governor Corbett:

We have conducted an audit of the Philadelphia County Assistance Office (CAO), Delancey District, pursuant to Section 109.1 of Title 55 of the Pennsylvania Code and Sections 402 and 403 of the Fiscal Code. Philadelphia County, Delancey District, falls under the Department of Public Welfare's (DPW's) HealthChoices mandatory managed care program. The audit period was July 1, 2009 through December 31, 2010. The objectives of our audit were to determine whether the CAO made proper eligibility determinations for recipients of Medicaid and to determine whether DPW took appropriate action to address the finding and recommendations contained in our prior audit report.

When recipients are not eligible for Medicaid, the cost to Pennsylvania taxpayers of the resulting improper payments could be significant. For individuals receiving health care services through a managed care organization (MCO), a set monthly capitation fee is paid to the MCO even if the recipient did not receive services during the period of ineligibility. For individuals not in an MCO, the amount of improper payments depends on the cost of services received by individuals during periods of ineligibility.

Our audit resulted in the following finding.

Finding - Failure To Make Proper Medicaid Eligibility Determinations

Report of Independent Auditors (Continued)

During the exit conference, we reviewed this finding and recommendations with the Philadelphia CAO, Delancey District, management. We have included the CAO and DPW management comments, where applicable, in this report.

Sincerely,

JACK WAGNER  
Auditor General

October 24, 2012

**Commonwealth of Pennsylvania  
Department of Public Welfare  
Philadelphia County Assistance Office  
Delancey District**

**BACKGROUND INFORMATION**

## ***Background Information***

---

---

Medicaid, also known as DPW's medical assistance program is the federal health care program for families and individuals with low income and resources. It is funded jointly by the state and the federal governments. DPW administers the program while the federal Centers for Medicare and Medicaid (CMS) establishes requirements for service delivery, quality and eligibility standards.

Eligibility determinations are based on federal and state regulations specifying which individuals qualify for a program and the amounts for which they qualify. The Code of Federal Regulations (CFR) contains the applicable federal regulations. The Pennsylvania Code contains the applicable state regulations.

Relevant information about recipients is recorded and maintained in DPW's Client Information System (CIS). This information is used to determine eligibility status and category of aid. The CAO updates information on CIS when new information becomes available.

CAO personnel utilize DPW's Income Eligibility Verification System (IEVS) to compare income and resource information with income and resource information obtained from outside sources. IEVS is updated on a regular basis with information from several sources including wage information from the Department of Labor and Industry, benefit information from the Social Security Administration, and tax and unearned income information from the Internal Revenue Service (IRS). CAO caseworkers are required to review this information at the time of application, when the recipient submits his/her semi-annual reporting (SAR) form and at the annual renewal. Caseworkers receive alerts when they are required to review certain information between the application date, the SAR and at the time of the annual renewal.

Delancey District**

**OBJECTIVES, SCOPE, AND METHODOLOGY**

## ***Objectives, Scope, And Methodology***

---

---

To achieve our audit objectives regarding eligibility, we obtained a quarterly data file from the Department of Public Welfare of all recipients determined by the CAO to be eligible for Medicaid benefits as of December 31, 2010. We selected a random sample of 146 cases from the 7,630 cases related to our audit objectives for the Philadelphia CAO, Delancey District represented in the data file. Our audit period was July 1, 2009 to December 31, 2010; however, in cases where we determined that an ineligible individual was receiving Medicaid benefits, we expanded our test work through the last date of his or her ineligibility.

For each case selected in our sample, we tested certain aspects of eligibility, including income, disability, citizenship and identity, and other non-financial eligibility requirements to determine compliance with DPW regulations and administrative policies.

The criteria we used to test cases in our sample include the Code of Federal Regulations and the Pennsylvania Code, Title 55.

It is DPW's position that current law does not allow DPW to provide all federal and state wage and unearned income information to the Department of the Auditor General. DPW provided us with most, but not all, federal and state wage and unearned income information. DPW did not give us access to IRS-reported wage and income data. This scope limitation prevents us from confirming that all available resources were included in calculating recipients' eligibility for benefits.

Department of Public Welfare  
Philadelphia County Assistance Office  
Delancey District**

**FINDING AND RECOMMENDATIONS**

## ***Finding and Recommendations***

---

---

The random sample contained 146 out of 7,630 Medicaid cases. The following finding addresses areas where deficiencies occurred:

### **Finding - Failure To Make Proper Medicaid Eligibility Determinations**

During our audit we found that CAO management failed to ensure that eligibility requirements were met in 20 of the 146, or 14% of the cases we tested. Recipients in these cases were either over the income limit or did not meet other conditions of eligibility such as age, disability, and SSA requirements. In 7 of these cases, recipients were not eligible for Medicaid benefits, and in 8 additional cases the recipients had periods of ineligibility and periods where they were placed in the incorrect category of aid. In 14 of these 15 cases, benefits were paid while the recipients were ineligible. As a result, improper payments of \$41,730 were issued to both managed care organizations and individual providers on behalf of recipients,<sup>1</sup> as shown in Table 1 on page 9 of this report. Specifically, improper payments of \$41,211 were issued to managed care organizations in the form of monthly capitation fees and \$519 was paid to providers for medical claims submitted on behalf of recipients. Payments made on behalf of ineligible recipients cannot be recouped by the Commonwealth from MCOs, due to contractual obligations, or from individual providers, who billed the Commonwealth in good faith. Therefore, it is important for DPW to monitor recipients' eligibility, immediately identify ineligible recipients, and stop payment of benefits on their behalf. The lack of proper monitoring increases the risk of payment to an ineligible recipient and creates an atmosphere that could result in potential fraud.

In 5 of the 20 cases, recipients were placed in the incorrect category of aid although they had no periods of ineligibility. Failure to place recipients in the proper category of aid could result in recipients receiving services for which they are not entitled, or being denied services for which they are entitled. Also, because capitation payment amounts vary depending on the category of aid, MCOs could be receiving erroneous capitation payments as a result of a recipient not being placed in the proper category of aid.

---

<sup>1</sup> In a fee-for-service environment providers are paid directly for services they provide to recipients. In a managed care environment, contracted managed care organizations are paid a set monthly capitation fee for all members of their organization whether or not members (recipients) received services. The managed care organization is then responsible to pay providers of services.

---

## ***Finding and Recommendations***

---

Because we do not have access to all wage and unearned income information as noted in our scope limitation described on page 6 of this report, we were not able to ascertain whether CAO personnel utilized all available wage and unearned income information to determine Medicaid eligibility. As a result, additional improper payments could have been made and not discovered during our audit.

The Medicaid Eligibility Handbook provides criteria to assist the CAO in making proper eligibility determinations.

These improper eligibility determinations occurred because:

- CAO management did not monitor to ensure that income from IEVS alerts was timely and properly reconciled with reported income.
- CAO management did not monitor to ensure that recipients met the age, disability, and Social Security Administration (SSA) requirements.

**Table 1**

	Audit Sample Number	Ineligibility Period		Benefits Paid
		From	To	
1.	MA-48	09/01/09	12/31/10	\$18,964.70
2.	MA-22	04/01/10	09/30/10	1,587.29
3.	MA-61	06/01/10	12/31/10	1,915.28
4.	MA-93	03/01/10	03/31/10	20.86
		07/01/10	09/30/10	642.76
5.	MA-87	10/08/10	12/31/10	2,334.31
6.	MA-36	10/01/09	01/31/10	719.30
7.	MA-38	12/01/09	12/31/09	240.40
8.	MA-97	10/01/09	12/31/09	716.94
9.	MA-98	08/23/10	12/31/10	832.39

14.	MA-129	07/01/09	01/31/10	1,507.65
	<b>Totals</b>			<b>\$41,729.88</b>

## ***Finding and Recommendations***

---

---

We recommend that:

- CAO management ensure that caseworkers timely and properly reconcile reported income with IEVS alerts.
- CAO management ensure that personnel understand the eligibility requirements pertaining to age, disability, and SSA requirements.

### **DPW's Management Response**

DPW disagrees with this finding. DPW, along with the CAO, reviewed the cases that the auditor cited as deficiencies and does not agree with all the exceptions cited as deficiencies for the individual cases. When DPW evaluates for Medicaid, it also evaluates for state-funded General Assistance (GA)-related MA categories. Although the procedures in place during the audit period (which extends back to July 1, 2009) worked well and were effective, it should be noted that since that time additional procedures have been implemented to make the monitoring even better and to further ensure that recipients are meeting eligibility requirements. The following responses to the issues identified by the AG support DPW's position on this finding.

During September of 2008, with the implementation of Workload Dashboard, training was provided to caseworkers that included an extensive review of the IEVS processing procedures. CAO management has the ability to scrutinize the Workload Dashboard of all CAO staff to ensure that IEVS alerts are addressed timely.

Alerts are created when a recipient turns age 1, 6, 19, 21, or 65, notifying the caseworkers that action must be taken on a case with regards to age. CAO management has the ability to monitor these alerts through the Workload Dashboard. CAOs monitor the age alerts related to recipients turning age 21 to ensure that ineligible recipients do not receive benefits.

When the Medical Review Team (MRT) certifies a client disabled, the disability continues as long as the MRT has certified the disability. If the client reports a change in medical condition, another MRT determination

## ***Finding and Recommendations***

---

is needed to re-evaluate the client's condition. The MRT determination can be found using the AppMap system, or the MRT may provide a hard copy for the case file (MA Handbook Section 305.25). Alerts are created when a disability end date is set to expire on the CADISB screen. CAO management has the ability to monitor these alerts through the Workload Dashboard.

Caseworkers complete a referral to the Disability Advocacy Program (DAP) when a recipient is determined to be disabled for a year or more or if the recipient has applied for Social Security benefits. As part of the DAP process, the client must apply for Social Security benefits. The DAP advocate is a separate CAO caseworker assigned to assist the client in the Social Security Administration (SSA) application and appeal process. When the DAP advocate receives the DAP Form (PA731) from the client's regular caseworker, they enter the required data onto the DAP Client Tracking and Reporting System and schedule an interview with the client. During the interview, the client and advocate must complete an Appointment of Representation Form (SSA 1696-U4). If there are any issues during the application process (for example, the client fails to appear for the SSA application interview), the SSA notifies the DAP advocate. Within 10 days of the notification, the DAP advocate is responsible for scheduling an interview with the client. If the client fails to meet the SSA application requirements, the advocate closes the client's case (Supplemental Handbook Section 820.6 and 820.61).

If the Disability Advocacy Program (DAP) advocate deems that the client does not have a reasonable chance of being determined eligible for Social Security benefits after the initial Social Security denial, the client does not have to continue the appeal process (Supplemental Handbook Section 820.64).

Workload Dashboard was introduced during September of 2008, providing Income Maintenance Caseworkers (IMCWs) and CAO management with a system that more easily allows for tracking of applications and maintenance requirements on case records.

## ***Finding and Recommendations***

---

Supervisors are required to review three records per worker every month to ensure that all factors of eligibility are addressed. Management will ensure that reviews occur and areas of concern are addressed.

Supervisors hold monthly meetings to review findings from previous audits and to review policy with IMCWs to ensure that the audit findings are addressed. Supervisors also hold individual monthly conferences to review each worker's Comprehensive Supervisory Review (CSR) results and to offer additional individual training to ensure that compliance with policy is maintained.

The procedures for providing assistance to recipients when applying for and obtaining Social Security Administration (SSA) benefits as described in DPW's response to this finding will be reviewed with IMCWs to assure that DPW policy is followed.

CAO management has placed more emphasis on scanning/imaging of all documentation in an attempt to cut down on misplaced or repetitive verification. This also allows IMCWs at different CAOs to view verification that may have previously been submitted in another county.

Desk guides are available for caseworkers and OIM staff on the following:

- Reporting requirements (Semi-Annual Reporting) for all budgets
- Income and Eligibility Verification System (IEVS) desk guide
- U.S. Citizenship and Identity desk guide
- Medical Eligibility Determination Automation (MEDA) desk references

### **Auditors' Conclusion**

We acknowledge DPW's efforts to review and revise procedures to ensure proper eligibility determinations are made. During our next audit we will examine the implementation of DPW's additional procedures, including the Workload Dashboard, to determine whether or not those procedures address the deficiencies noted in this report.

It is clear that the procedures in place during the audit period were not adequate to ensure proper eligibility determinations were consistently made. It is also clear that payments to managed care organizations or medical providers on behalf of recipients did not cease when some recipients were no longer eligible.

## ***Finding and Recommendations***

---

---

The creation of alerts to prompt action on a case does not ensure that the action is taken. For example, when a recipient turns 19, he or she is no longer a child and therefore is ineligible for medical assistance as a child. An alert by a DPW system to the CAO on the recipient's 19th birthday does not ensure the CAO takes action to reassess the individual's eligibility and stop payment of benefits on behalf of the recipient who is no longer eligible for benefits unless the recipient has experienced a life changing event such as a pregnancy or a serious medical condition.

Lastly, deficiencies we detected related to MRT typically involved children who are eligible for a specific category of medical coverage. These children need medical coverage and they are eligible for coverage. In these cases the children were provided medical coverage under a SSI related or Healthy Horizons category which have higher capitation fees when the children should have been provided coverage under a Money Payment or Healthy Beginnings category which have lower capitation fees.

**STATUS OF PRIOR AUDIT FINDINGS**

## ***Status of Prior Audit Findings***

---

Our prior audit of the Philadelphia CAO, Delancey District, resulted in one reported finding: CAO management failed to make proper Medicaid eligibility determinations. We performed audit procedures regarding this finding and as a result, we determined that deficiencies existed to warrant a repeat finding in this audit report. See page 8 of this report for further discussion.

## ***Audit Report Distribution List***

---

---

This report was originally distributed to the following:

### Commonwealth of Pennsylvania

The Honorable Tom Corbett  
Governor

The Honorable Robert McCord  
State Treasurer
