EUGENE A. DEPASQUALE AUDITOR GENERAL

Ms. Lisa Murgas, Superintendent Williamsburg Community School District 515 West 3rd Street Williamsburg, Pennsylvania 16693 Dr. Barry England, Board President Williamsburg Community School District 515 West 3rd Street Williamsburg, Pennsylvania 16693

Dear Ms. Murgas and Dr. England:

Our performance audit of the Williamsburg Community School District (District) evaluated the application of best practices in the areas of academics, governance, finance, safety, and bus driver requirements. In addition, this audit determined the District's compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures (relevant requirements). This audit covered the period December 28, 2012 through April 10, 2015, except as otherwise stated and was conducted pursuant to Section 403 of The Fiscal Code and in accordance with the Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Our audit found that the District effectively applied best practices in the areas listed above. In addition, we determined that the District complied, in all material respects, with relevant requirements.

We appreciate the District's cooperation during the course of the audit.

Sincerely,

Eugene A. DePasquale

Eugraf: O-Pasyer

July 30, 2015 Auditor General

Audit Work

The Pennsylvania Department of the Auditor General conducted a performance audit of the District. Our audit sought to answer certain questions regarding the District's compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures.

Our audit scope covered the period December 28, 2012 through April 10, 2015, except as otherwise indicated in the audit scope, objectives, and methodology section of the report.

Audit Conclusion and Results

Our audit found that the District complied, in all material respects, with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures. Our audit resulted in no findings or observations.

Status of Prior Audit Findings and Observations. There were no findings or observations in our prior audit report.

Background Informationⁱ

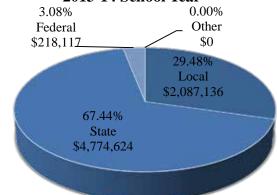

School Characteristics 2014-15 School Year ⁱⁱ						
County	Blair

Findings and Observations For the audited period, our audit of the District resulted in no findings or observations.

Status of Prior Audit Findings and Observations							
Our prior audit of the District resulted in no findings or observations.							

Appendix: Audit Scope, Objectives, and Methodology

School performance audits allow the Pennsylvania Department of the Auditor General to determine whether state funds, including school subsidies, are being used according to the purposes and guidelines that govern the use of those funds. Additionally, our audits examine the appropriateness of certain administrative and operational practices at each local education agency (LEA). The results of these audits are shared with LEA management, the Governor, the Pennsylvania Department of Education (PDE), and other concerned entities.

Our audit, conducted under authority of Section 403 of The Fiscal Code¹, is not a substitute for the local annual financial audit required by the Public School Code of 1949, as amended. We conducted our audit in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit.

Scope

Overall, our audit covered the period December 28, 2012 through April 10, 2015. In addition, the scope of each individual audit objective is detailed on the next page.

While all districts have the same school years, some have different fiscal years. Therefore, for the purposes of our audit work and to be consistent with PDE reporting guidelines, we use the term *school year* rather than fiscal year throughout this report. A school year covers the period July 1 to June 30.

The District's management is responsible for establishing and maintaining effective internal controls² to provide reasonable assurance that the District is in compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures (relevant requirements). In conducting our audit, we obtained an understanding of the District's internal controls, including any information technology controls, as they relate to the District's compliance with relevant requirements that we consider to be material within the context of our audit objectives. We assessed whether those controls were properly designed and implemented. Any deficiencies in internal controls that were identified during the conduct of our audit and determined to be material within the context of our audit objectives are included in this report.

_

¹ 72 P.S. § 403

² Internal controls are processes designed by management to provide reasonable assurance of achieving objectives in areas such as: effectiveness and efficiency of operations; relevance and reliability of operational and financial information; and compliance with certain relevant state laws, regulations, contracts, grant requirements, and administrative procedures.

Objectives/Methodology

In order to properly plan our audit and to guide us in selecting objectives, we reviewed pertinent laws and regulations, board meeting minutes, academic performance data, financial reports, annual budgets, and new or amended policies and procedures. We also determined if the District had key personnel or software vendor changes since the prior audit.

Performance audits draw conclusions based on an evaluation of sufficient, appropriate evidence. Evidence is measured against criteria, such as laws, regulations, third-party studies, and best business practices. Our audit focused on the District's efficiency and effectiveness in the following areas:

- ü Academics
- ü Governance
- Ü Financial Stability
- ü School Safety
- Ü Bus Driver Requirements

As we conducted our audit procedures, we sought to determine answers to the following questions, which served as our audit objectives:

- Ü Did the LEA's Board of School Directors (Board) and administration maintain best practices in governing academics and student achievement by developing and executing a plan to improve student academic performance at its failing school buildings?
 - To address this objective, we considered a variety of District and school level academic results for the 2007-08 through 2012-13 school years to determine if the District had schools not meeting statewide academic standards established by PDE³. Since one underperforming school was identified, we selected that school for further review. This review consisted of conducting interviews with the Superintendent and any other designated employees and reviewing required School Improvement Plans and School Level Plans to determine if the selected underperforming school had established goals for improving academic performance, are implementing goals, and are appropriately monitoring the implementation of these goals.

³ Academic data for the District and its school buildings included a five year trend analysis of Adequate Yearly Progress (AYP) results from the 2007-08 through 2011-12 school years. Pennsylvania System of School Assessment results in Math and Reading for the "all students" group for the 2011-12 and 2012-13 school years. School Performance Profile scores for the 2012-13 school year, and federal accountability designations (i.e. Priority, Focus, Reward, and No Designation) for Title I schools for the 2012-13 school year. All of the academic data standards and results we examined originated with PDE.

- Ü Did the LEA's Board and administration maintain best practices in overall organizational governance?
 - O To address this objective, we surveyed the District's current Board, conducted in-depth interviews with the current Superintendent and his or her staff, reviewed board meeting books, policies and procedures, and reports used to inform the Board about student performance, progress in meeting student achievement goals, budgeting and financial position, and school violence data to determine if the Board was provided sufficient information for making informed decisions.
- Ü Based on an assessment of fiscal benchmarks, was the District in a declining financial position, and did it comply with all statutes prohibiting deficit fund balances and the over expending of the District's budget?
 - O To address this objective, we reviewed the District's annual financial reports, budget, independent auditor's reports, summary of child accounting, and general ledger for fiscal years July 1, 2005 through June 30, 2014. The financial and statistical data was used to calculate ratios and trends for 22 benchmarks which were deemed appropriate for assessing the District's financial stability.
- Ü Did the District take appropriate actions to ensure it provided a safe school environment?
 - o To address this objective, we reviewed a variety of documentation including, safety plans, training schedules, anti-bullying policies, and after action reports.
- Ü Did the District ensure that bus drivers transporting District students had the required driver's license, physical exam, training, background checks, and clearances as outline in applicable laws⁴? Also, did the District have adequate written policies and procedures governing the hiring of new bus drivers?
 - O To address this objective, we selected 5 of the 17 bus drivers hired by the District bus contractor during the school year(s) July 1, 2014 to June 30, 2015, and reviewed documentation to ensure the District complied with bus driver hiring requirements. We also determined if the District had written policies and procedures governing the hiring of bus drivers and if those procedures were sufficient to ensure compliance with bus driver hiring requirements.

Williamsburg Community School District Performance Audit

iv PSSA stands for the Pennsylvania System of School Assessment (PSSA), which is composed of statewide, standardized tests administered by PDE to all public schools and the reporting associated with the results of those assessments. PSSA scores in the tables in this report reflect Reading and Math results for the "All Students" group for the 2011-12 and 2012-13 school years.

^v PSSA scores, which are Pennsylvania's mandatory, statewide academic test scores, are issued by PDE. However, the PSSA scores issued by PDE are collected by an outside vendor, Data Recognition Corporation (DRC). The Pennsylvania Department of the Auditor General and KPMG issued a material weakness in internal controls over PDE's compilation of this academic data in the Single Audit of the Commonwealth of Pennsylvania for the fiscal year ended June 30, 2014, citing insufficient review procedures at PDE to ensure the accuracy of test score data received from DRC.

vi In the 2011-12 school year, the state benchmarks reflect the Adequate Yearly Progress targets established under No Child Left Behind. In the 2012-13 school year, the state benchmarks reflect the statewide goals based on annual measurable objectives established by PDE.

vii SPP stands for School Performance Profile, which is Pennsylvania's new method for reporting academic performance scores for all public schools based on a scale from 0% to 100% implemented in the 2012-13 school year by PDE.

viii *Id.* Additionally, federal Title I designations of Priority, Focus, Reward, and No Designation are new federal accountability designations issued by PDE to Title I schools only beginning in the 2012-13 school year. Priority schools are the lowest 5%, focus schools are the lowest 10%, and reward schools are the highest 5% of Title I schools. All Title I schools not falling into one of the aforementioned percentage groups are considered "No Designation" schools. The criteria used to calculate the percentage rates is determined on an annual basis by PDE. ix Title I Federal accountability designations for Title I schools originate from PDE and are determined based on the number of students at the school who receive free and/or reduced price lunches. School lunch data is accumulated in PDE's CN-PEARS system, which is customized software developed jointly with an outside vendor, Colyar, Inc. The Pennsylvania Department of the Auditor General and KPMG issued a material deficiency in internal controls over the CN-PEARS system in the Single Audit of the Commonwealth of Pennsylvania for the fiscal year ended June 30, 2014.
