## **Executive Summary**

### **Audit Work**

The Pennsylvania Department of the Auditor General conducted a performance audit of the Bentworth School District (District). Our audit sought to answer certain questions regarding the District's compliance with applicable state laws, contracts, grant requirements, and administrative procedures.

Our audit scope covered the period April 16, 2010 through October 12, 2012, except as otherwise indicated in the audit scope, objectives, and methodology section of the report. Compliance specific to state subsidies and reimbursements was determined for the 2009-10 and 2008-09 school years.

### **District Background**

The District encompasses approximately 54 square miles. According to 2010 federal census data, it serves a resident population of 8,555. According to District officials, the District provided basic educational services to 1,188 pupils through the employment of 97 teachers, 58 full-time and part-time support personnel, and 9 administrators during the 2009-10 school year. Lastly, the District received \$8.4 million in state funding in the 2009-10 school year.

### **Audit Conclusion and Results**

Our audit found that the District complied, in all significant respects, with applicable state laws, contracts, grant requirements, and administrative procedures. We report no findings or observations in this report.

**Status of Prior Audit Findings and Observations.** There were no findings or observations included in our prior audit report.

## Audit Scope, Objectives, and Methodology

---

### Scope

*What is a school performance audit?*

School performance audits allow the Pennsylvania Department of the Auditor General to determine whether state funds, including school subsidies, are being used according to the purposes and guidelines that govern the use of those funds. Additionally, our audits examine the appropriateness of certain administrative and operational practices at each local education agency (LEA). The results of these audits are shared with LEA management, the Governor, the Pennsylvania Department of Education, and other concerned entities.

Our audit, conducted under authority of 72 P.S. § 403, is not a substitute for the local annual audit required by the Public School Code of 1949, as amended. We conducted our audit in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

Our audit covered the period April 16, 2010 through October 12, 2012, except for the verification of professional employee certification which was performed for the period July 1, 2011 through June 30, 2012.

Regarding state subsidies and reimbursements, our audit covered the 2009-10 and 2008-09 school years.

While all districts have the same school years, some have different fiscal years. Therefore, for the purposes of our audit work and to be consistent with Pennsylvania Department of Education (PDE) reporting guidelines, we use the term school year rather than fiscal year throughout this report. A school year covers the period July 1 to June 30.

### Objectives

*What is the difference between a finding and an observation?*

Our performance audits may contain findings and/or observations related to our audit objectives. Findings describe noncompliance with a statute, regulation, policy, contract, grant requirement, or administrative procedure. Observations are reported when we believe corrective action should be taken to remedy a potential problem not rising to the level of noncompliance with specific criteria.

Performance audits draw conclusions based on an evaluation of sufficient, appropriate evidence. Evidence is measured against criteria, such as laws and defined business practices. Our audit focused on assessing the District's compliance with applicable state laws, contracts, grant requirements, and administrative procedures. However, as we conducted our audit procedures, we sought to determine answers to the following questions, which serve as our audit objectives:

- ✓ Were professional employees certified for the positions they held?
- ✓ Did the District have sufficient internal controls to ensure that the membership data it reported to PDE through the Pennsylvania Information Management System was complete, accurate, valid, and reliable?
- ✓ Were there any declining fund balances that may pose a risk to the District's fiscal viability?

- ✓ Did the District pursue a contract buy-out with an administrator and if so, what was the total cost of the buy-out, what were the reasons for the termination/settlement, and did the current employment contract(s) contain adequate termination provisions?
- ✓ Did the District take appropriate steps to ensure school safety?
- ✓ Did the District have a properly executed and updated Memorandum of Understanding with local law enforcement?
- ✓ Were there any other areas of concern reported by local auditors, citizens, or other interested parties?

## Methodology

### *What are internal controls?*

Internal controls are processes designed by management to provide reasonable assurance of achieving objectives in areas such as:

- Effectiveness and efficiency of operations.
- Relevance and reliability of operational and financial information.
- Compliance with applicable laws, contracts, grant requirements, and administrative procedures.

*Government Auditing Standards* require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our results and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our results and conclusions based on our audit objectives.

The District's management is responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the District is in compliance with applicable laws, contracts, grant requirements, and administrative procedures. In conducting our audit, we obtained an understanding of the District's internal controls, including any information technology controls, as they relate to the District's compliance with applicable state laws, regulations, contracts, grant requirements, and administrative procedures that we consider to be significant within the context of our audit objectives. We assessed whether those controls were properly designed and implemented. Any deficiencies in internal control that were identified during the conduct of our audit and determined to be significant within the context of our audit objectives are included in this report.

In order to properly plan our audit and to guide us in possible audit areas, we performed analytical procedures in the areas of state subsidies and reimbursements, pupil transportation, pupil membership, and comparative financial information.

Our audit examined the following:

- Records pertaining to professional employee certification, and financial stability.
- Items such as board meeting minutes and policies and procedures.

Additionally, we interviewed select administrators and support personnel associated with the District's operations.
