AUDITOR GENERAL

Dr. Russell E. Greenholt, Superintendent
Conewago Valley School District

New Oxford, Pennsylvania 17350

Mr. Keith Mummert, Board President
Conewago Valley School District
130 Berlin Road
New Oxford, Pennsylvania 17350

Dear Dr. Greenholt and Mr. Mummert:

We conducted a Limited Procedures Engagement (LPE) of the Conewago Valley School District (District) to determine its compliance with certain relevant state laws, regulations, policies, and administrative procedures (relevant requirements). The LPE covers the period July 1, 2012, through June 30, 2016, except for any areas of compliance that may have required an alternative to this period. The engagement was conducted pursuant to authority derived from Article VIII, Section 10 of the Constitution of the Commonwealth of Pennsylvania and The Fiscal Code (72 P.S. §§ 402 and 403), but was not conducted in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

As we conducted our LPE procedures, we sought to determine answers to the following questions, which serve as our LPE objectives:

- Did the District have documented board policies and administrative procedures related to the following?
 - Internal controls
 - Budgeting practices
 - The Right-to-Know Law
 - The Sunshine Act
- Were the policies and procedures adequate and appropriate, and have they been properly implemented?
- Did the District comply with the relevant requirements in the Right-to-Know Law and the Sunshine Act?
- Did the District take appropriate corrective action to address the finding made in our prior audit, and were the actions taken into effect?

Dr. Russell E. Greenholt
Mr. Keith Mummert

Our engagement found that the District properly implemented policies and procedures for the areas mentioned above and complied, in all significant respects, with relevant requirements.

We appreciate the District's cooperation during the conduct of the engagement.

Sincerely,

Academic Information

The graphs on the following pages present School Performance Profile (SPP) scores, Pennsylvania System of School Assessment (PSSA), Keystone Exam results, and 4-Year Cohort Graduation Rates for the District obtained from PDE's data files for the 2014-15 and 2015-16 school years.¹ These scores are provided in the District's report for **informational purposes only**, and they were not audited by our Department. Please note that if one of the District's schools did not receive a score in a particular category and year presented below, the school will not be listed in the corresponding chart.² Finally, benchmarks noted in the following graphs represent the statewide average of all public school buildings in the Commonwealth that received a score in the category and year noted.³

What is a SPP score?

A SPP score serves as a benchmark for schools to reflect on successes, achievements, and yearly growth. PDE issues a SPP score using a 0-100 scale for all school buildings in the Commonwealth annually, which is calculated based on standardized testing (i.e. PSSA and Keystone exams), student improvement, advance course offerings, and attendance and graduation rates. Generally speaking, a SPP score of 70 or above is considered to be a passing rate.

PDE started issuing a SPP score for all public school buildings beginning with the 2012-13 school year. For the 2014-15 school year, PDE only issued SPP scores for high schools taking the Keystone Exams as scores for elementary and middle schools were put on hold due to changes with PSSA testing.⁴ PDE resumed issuing a SPP score for all schools for the 2015-16 school year.

What is the PSSA?

The PSSA is an annual, standardized test given across the Commonwealth to students in grades 3 through 8 in core subject areas, including English and Math. The PSSAs help Pennsylvania meet federal and state requirements and inform instructional practices, as well as provide educators, stakeholders, and policymakers with important information about the state's students and schools.

¹ PDE is the sole source of academic data presented in this report. All academic data was obtained from PDE's publically available website.

² PDE's data does not provide any further information regarding the reason a score was not published for a specific school. However, readers can refer to PDE's website for general information regarding the issuance of academic scores.

³ Statewide averages were calculated by our Department based on individual school building scores for all public schools in the Commonwealth, including district schools, charters schools, and cyber charter schools.

⁴ According to PDE, SPP scores for elementary and middle schools were put on hold for the 2014-15 school year due to the state's major overhaul of PSSA exams to align with state Common Core standards and an unprecedented drop in public schools' PSSA scores that year. Since PSSA scores are an important factor in the SPP calculation, the state decided not to use PSSA scores to calculate a SPP score for elementary and middle schools for the 2014-15 school year. Only high schools using the Keystone Exam as the standardized testing component received a SPP score.

The 2014-15 school year marked the first year that PSSA testing was aligned to the more rigorous PA Core Standards.⁵ The state uses a grading system with scoring ranges that place an individual student's performance into one of four performance levels: Below Basic, Basic, Proficient, and Advanced. The state's goal is for students to score Proficient or Advanced on the exam in each subject area.

What is the Keystone Exam?

The Keystone Exam measures student proficiency at the end of specific courses, such as Algebra I, Literature, and Biology. The Keystone Exam was intended to be a graduation requirement starting with the class of 2017, but that requirement has been put on hold until at least 2020. In the meantime, the exam is still given as a standardized assessment and results are included in the calculation of SPP scores. The Keystone Exam is scored using the same four performance levels as the PSSAs, and the goal is to score Proficient or Advanced for each course requiring the test.

What is a 4-Year Cohort Graduation Rate?

PDE collects enrollment and graduate data for all Pennsylvania public schools, which is used to calculate graduation rates. Cohort graduation rates are a calculation of the percentage of students who have graduated with a regular high school diploma within a designated number of years since the student first entered high school. The rate is determined for a cohort of students who have all entered high school for the first time during the same school year. Data specific to the 4-year cohort graduation rate is presented in the graph.⁶

⁵ PDE has determined that PSSA scores issued beginning with the 2014-15 school year and after are not comparable to prior years due to restructuring of the exam. (Also, see footnote 4).

⁶ PDE also calculates 5-year and 6-year cohort graduation rates. Please visit PDE's website for additional information: <http://www.education.pa.gov/Data-and-Statistics/Pages/Cohort-Graduation-Rate-.aspx>.

Status of Prior Audit Findings and Observations

Our prior audit of the Conewago Valley School District (District) released on August 14, 2014, resulted in one finding, as shown below. As part of our current engagement, we determined the status of corrective action taken by the District to implement our prior audit recommendations. We reviewed the District's written response provided to the Pennsylvania Department of Education (PDE), interviewed District personnel, and performed audit procedures as detailed in each status section below.

Auditor General Performance Audit Report Released on August 14, 2014

Prior Finding: **A Lack of Proper Internal Controls Resulted in the District Making Student Data Reporting Errors, Which Resulted in an Underpayment of \$53,660 in State Subsidy**

Prior Finding Summary: Our prior audit of the District's student membership found reporting errors submitted to PDE for the 2009-10 school year that resulted in an underpayment of \$53,660 in the District's state reimbursement for educating nonresident children placed in private homes (foster children). In addition, we found that the District's internal controls were not effective to ensure that the membership data it reported to PDE was accurate, valid, and complete.

Prior Recommendations: We recommended that the District should:

1. Verify that the preliminary reports from PDE are correct and if not, revise and resubmit child accounting data so that the final reports from PDE are correct.
2. Establish internal controls that include reconciliations of the data that is uploaded into PDE's Pennsylvania Information Management System with the information in the District's student information system.
3. Perform an internal control review of membership reports and summaries prior to submission of final reports to PDE.

We also recommended that PDE should:

4. Revise all reports that have been incorrectly reported and adjust the District's reimbursements affected by the error.

Current Status:

The District implemented our prior audit recommendations. The District established procedures to review and reconcile preliminary membership reports prior to submission to PDE. The District also created and implemented a “Child Accounting Checklist” to help ensure student membership is accurately compiled by the District and reported accurately to PDE. Additionally, PDE adjusted the District’s reimbursement on August 28, 2014.⁷

⁷ The final reimbursement adjustment calculated by PDE was \$53,330.
