Audit Work

The Pennsylvania Department of the Auditor General conducted a performance audit of the Tredyffrin- Easttown School District (District). Our audit sought to answer certain questions regarding the District's compliance with applicable state laws, contracts, grant requirements, and administrative procedures.

Our audit scope covered the period May 10, 2010 through April 4, 2013, except as otherwise indicated in the audit scope, objectives, and methodology section of the report. Audit Scope, Objectives, and Methodology

Scope

What is a school performance audit?

School performance audits allow the Pennsylvania Department of the Auditor General to determine whether state funds, including school subsidies, are being used according to the purposes and guidelines that govern the use of those funds. Additionally, our audits examine the appropriateness of certain administrative and operational practices at each local education agency (LEA). The results of these audits are shared with LEA management, the Governor, the Pennsylvania Department of Education, and other concerned entities.

Our audit, conducted under authority of 72 P.S. § 403, is not a substitute for the local annual audit required by the Public School Code of 1949, as amended. We conducted our audit in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States.

Our audit covered the period May 10, 2010 through April 4, 2013, except for the verification of professional employee certification which was performed for the period March 30, 2010 through February 21, 2013.

Regarding state subsidies and reimbursements, our audit covered the 2011-12, 2010-11, 2009-10 and 2008-09 school years.

While all districts have the same school years, some have different fiscal years. Therefore, for the purposes of our audit work and to be consistent with the Pennsylvania Department of Education (PDE) reporting guidelines, we use the term school year rather than fiscal year throughout this report. A school year covers the period July 1 to June 30.

Objectives

What is the difference between a finding and an observation?

Our performance audits may contain findings and/or observations related to our audit objectives. Findings describe noncompliance with a statute, regulation, policy, contract, grant requirement, or administrative procedure. Observations are reported when we believe corrective action should be taken to remedy a potential problem not rising to the level of noncompliance with specific criteria.

Performance audits draw conclusions based on an evaluation of sufficient, appropriate evidence. Evidence is measured against criteria, such as laws and defined business practices. Our audit focused on assessing the District's compliance with applicable state laws, contracts, grant requirements, and administrative procedures. However, as we conducted our audit procedures, we sought to determine answers to the following questions, which serve as our audit objectives:

- ✓ Were professional employees certified for the positions they held?
- ✓ Did the District have sufficient internal controls to ensure that the membership data it reported to PDE through the Pennsylvania Information Management System was complete, accurate, valid, and reliable?

- ✓ In areas where the District received transportation subsidies, were the District and any contracted vendors, in compliance with applicable state laws and procedures?
- ✓ Did the District, and any contracted vendors, ensure that their current bus drivers were properly qualified, and did they have written policies and procedures governing the hiring of new bus drivers?
- ✓ Were there any declining fund balances that may pose a risk to the District's fiscal viability?
- ✓ Did the District pursue a contract buy-out with an administrator and if so, what was the total cost of the buy-out, what were the reasons for the termination/settlement, and did the current employment contract(s) contain adequate termination provisions?
- ✓ Did the District take appropriate steps to ensure school safety?
- ✓ Did the District have a properly executed and updated Memorandum of Understanding with local law enforcement?
- ✓ Were votes made by the District's Board of School Directors free from apparent conflicts of interest?
- ✓ Were there any other areas of concern reported by local auditors, citizens, or other interested parties?

Methodology

Government Auditing Standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our results and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our results and conclusions based on our audit objectives.

The District's management is responsible for establishing and maintaining effective internal controls to provide reasonable assurance that the District is in compliance with applicable laws, contracts, grant requirements, and administrative procedures. In conducting our audit, we

What are internal controls?

Internal controls are processes designed by management to provide reasonable assurance of achieving objectives in areas such as:

- Effectiveness and efficiency of operations.
- Relevance and reliability of operational and financial information.
- Compliance with applicable laws, contracts, grant requirements, and administrative procedures.

obtained an understanding of the District's internal controls, including any information technology controls, as they relate to the District's compliance with applicable state laws, regulations, contracts, grant requirements, and administrative procedures that we consider to be significant within the context of our audit objectives. We assessed whether those controls were properly designed and implemented. Any deficiencies in internal control that were identified during the conduct of our audit and determined to be significant within the context of our audit objectives are included in this report.

In order to properly plan our audit and to guide us in possible audit areas, we performed analytical procedures in the areas of state subsidies and reimbursements, pupil transportation, pupil membership and comparative financial information.

Our audit examined the following:

- Records pertaining to pupil transportation, bus driver qualifications, professional employee certification, and financial stability.
- Items such as board meeting minutes and policies and procedures.

Additionally, we interviewed select administrators and support personnel associated with the District's operations.

Findings and Observations

For the audited period, our audit of the Tredyffrin-Easttown School District resulted in no findings or observations.

Status of Prior Audit Findings and Observations

Our prior audit of the Tredyffrin-Easttown School District resulted in no findings or observations.
